
Why This Matters?

- ❖ Darwin's "scientific" ideas are foundational to:
 - ❖ Atheism, Eugenics, **Racism and White Supremacy** WORLDWIDE
 - ❖ His ideas should not be the **ONLY** ideas about human evolution taught in schools.
- ❖ Darwin's main ideas about evolution have been proven **false**.
- ❖ The Science of **Intelligent Design** has very strong scientific support.
 - ❖ This theory does not contradict the Bible like Darwin's does
- ❖ Darwin's **racist ideas** need to be challenged **NOW!**

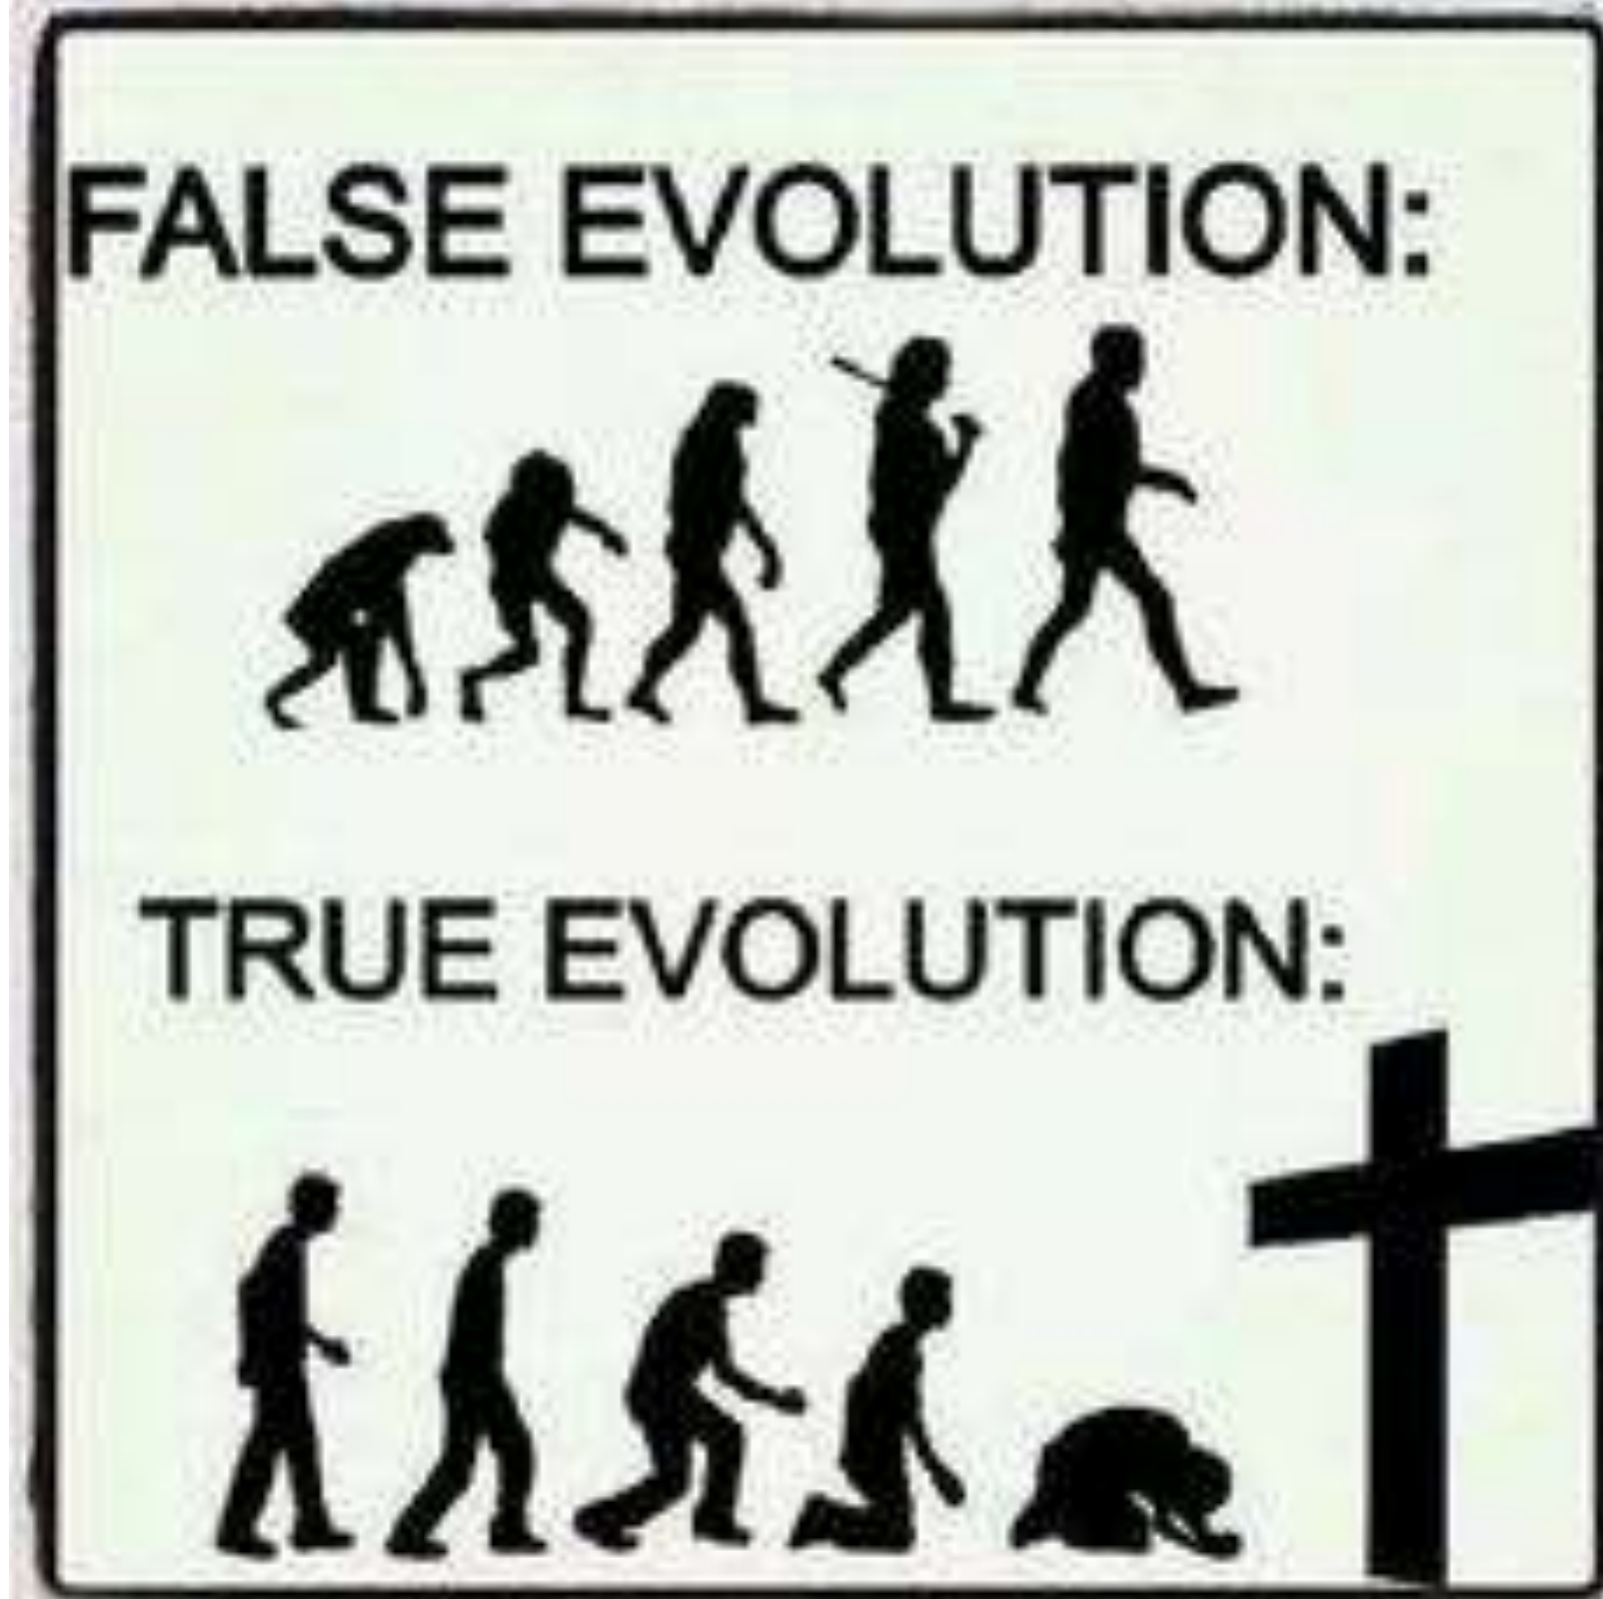

The Evil Legacy of Darwin's Ideas

- ❖ **Atheism:** students lose their faith in college
- ❖ **Racism:** Darwin “proved” from science that some races are inferior
- ❖ **Eugenics:** Margaret Sanger: racist, eugenicist and disciple of Darwin
- ❖ **White Supremacy:** Darwin “proved” from science that whites are superior to non-whites
- ❖ Public schools use Darwin to justify the myth that **humans are just animals were created from monkeys.**
- ❖ Public schools use Darwin to teach kids they are the **accidental products of prehistoric swamp slime.**

What Fossils?

Darwin Knew This Was a Problem!

Is Evolution True?

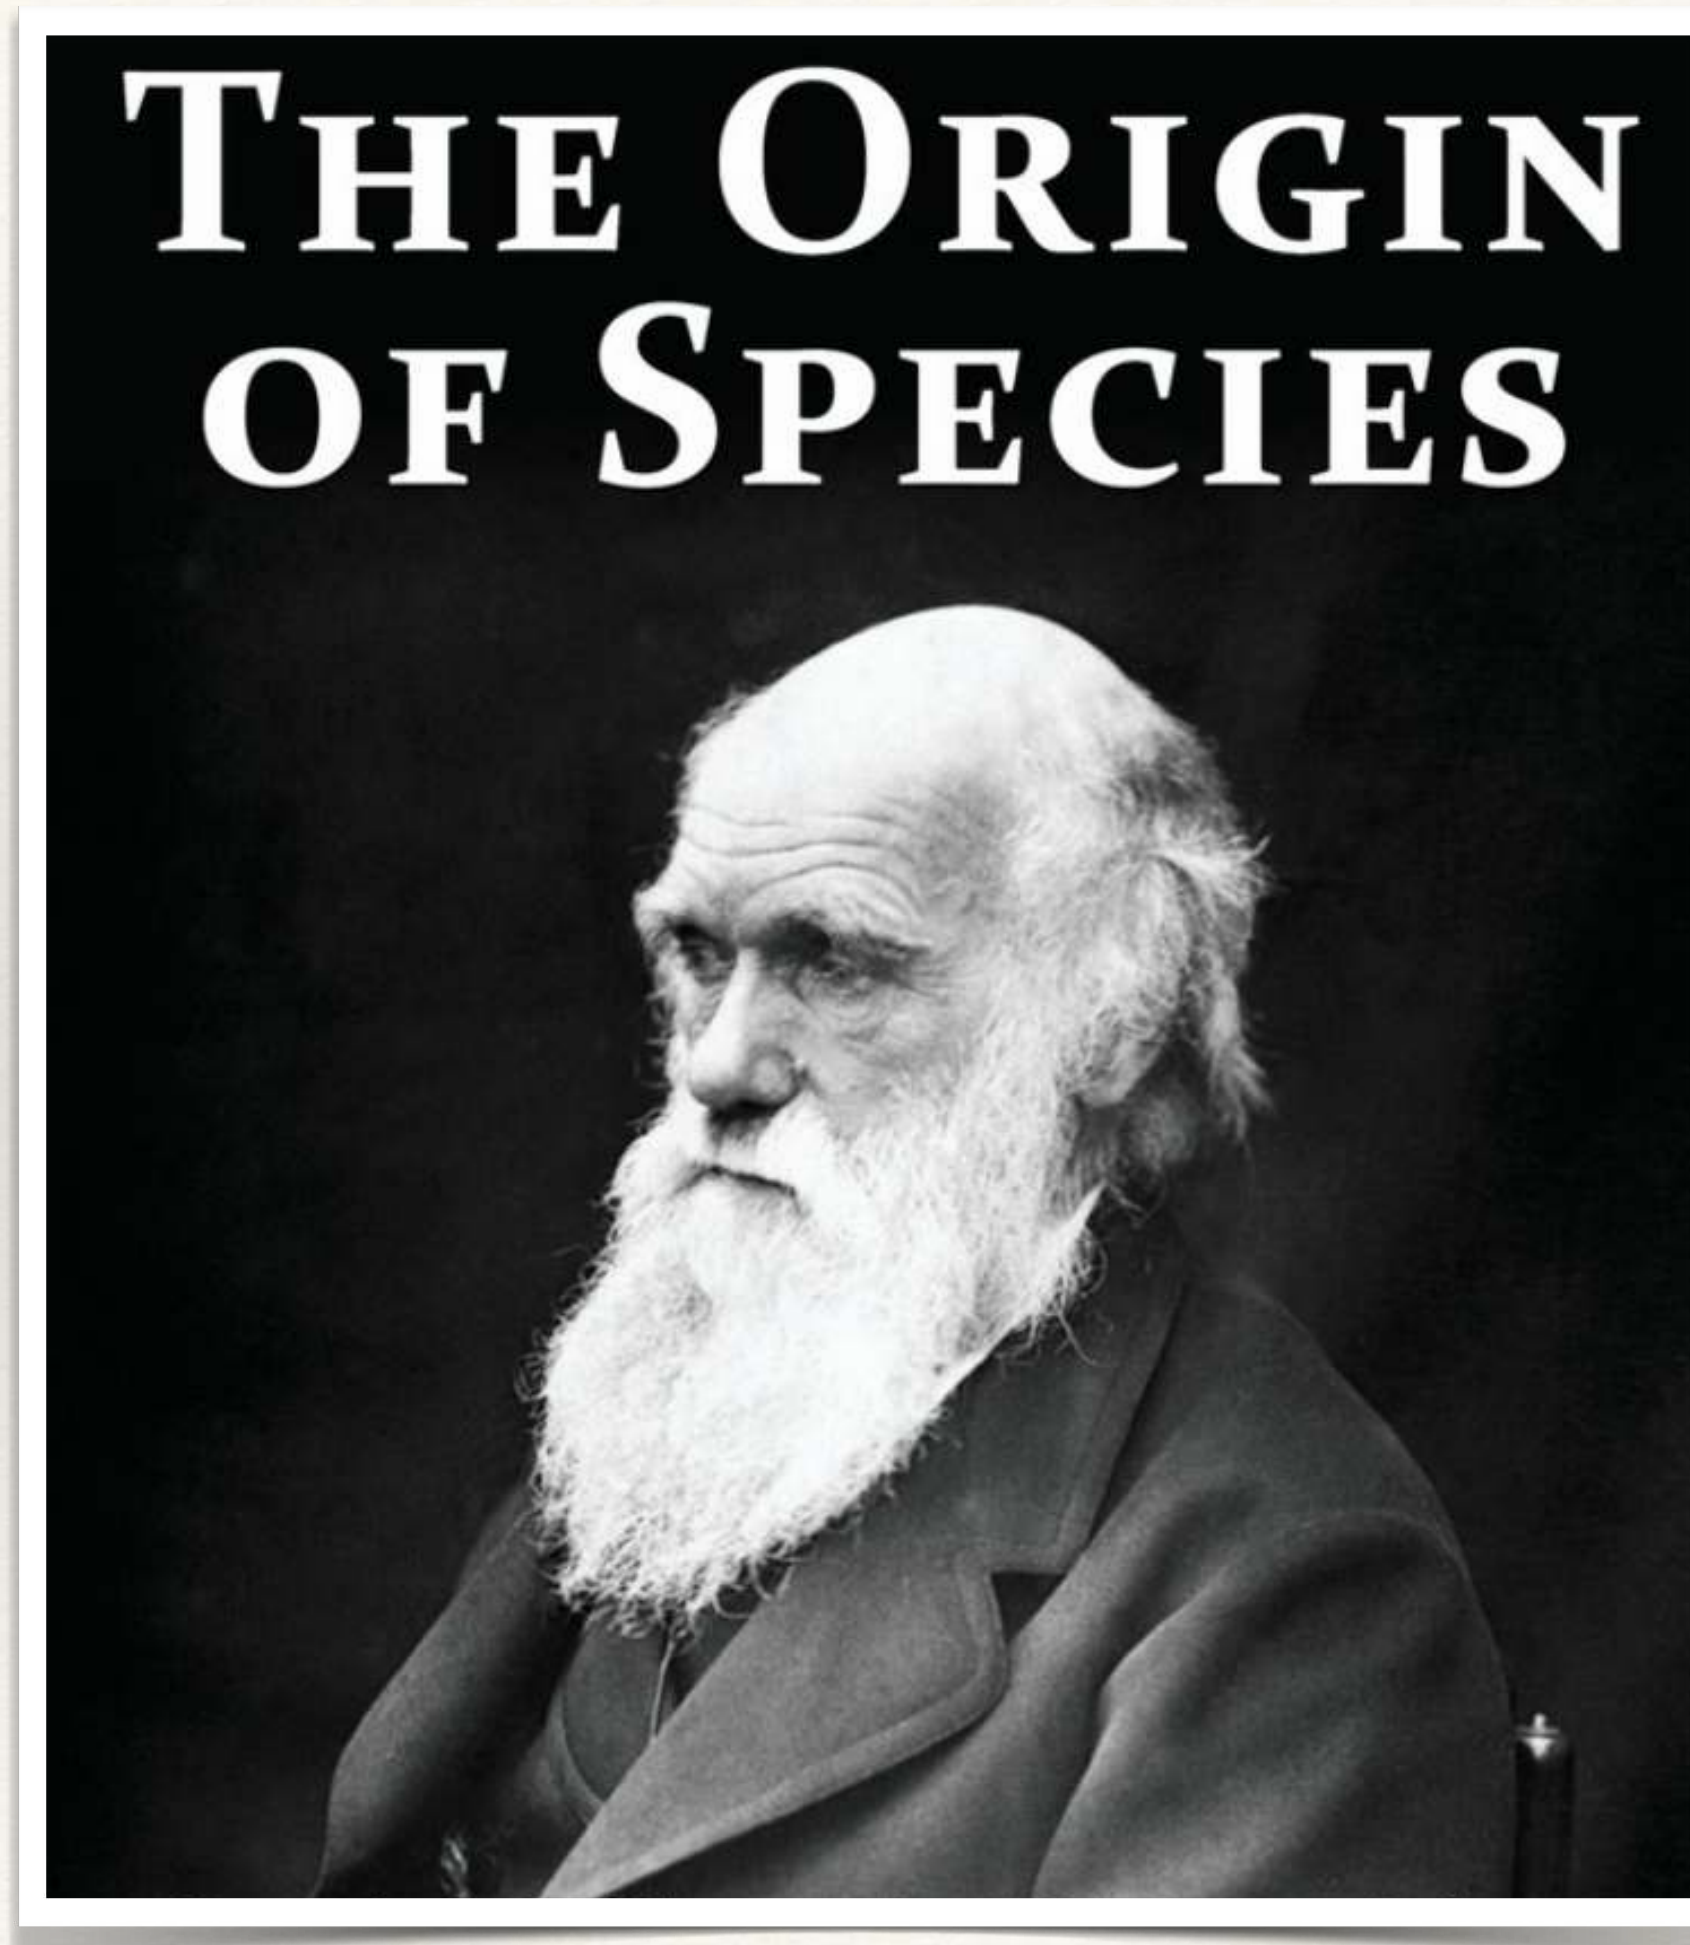

Let's Talk Real
Science

Not Just Ideas with No Real
Proof

A Theory About the Origin of Living Things

- ❖ “The appearance of **The Origin of Species** launched one of the greatest, and most justly celebrated, revolutions in the history of science.” (genetics.org)

- ❖

Darwin Predicted

- ❖ "I can see no difficulty in a **race of bears** being rendered, by natural selection, more aquatic in their structure and habits, with larger and larger mouths, till a creature was produced as monstrous as a **whale**," he speculated.
- ❖ The idea didn't go over very well with the public. Darwin was so embarrassed by the ridicule he received that **the swimming-bear passage was removed from later editions of the book.**
- ❖ Scientists now know that **Darwin had the right idea but the wrong animal: Instead of looking at bears, he should have instead been looking at cows and hippopotamuses."** <https://www.livescience.com/474-controversy-evolution-works.html>

What is a Theory?

- ❖ Noted Evolutionist **Stephen Hawking** states, "You can disprove a theory by finding **even a single observation** that disagrees with the predictions of the theory". (Brief History of Time, 1988)

“Darwinism is a trivial idea that has been elevated to the status of the scientific theory that governs modern biology.”

**Dr. Michael Egnor,
Professor of Neurosurgery and Pediatrics at State University of New York, Stony Brook**

Second Law of Thermodynamics

- ❖ “The Second Law of Thermodynamics (Entropy) ... states that...there is a **natural tendency of any isolated system to degenerate into a more disordered state.** .” (livescience.com)
- ❖ “Entropy”: a state of disorder.

Second law of thermodynamics

- ❑ Also called law of the degradation of energy or law of entropy.
- ❑ This law was developed in 1850s by German Physicist Rudolf Clausius.
- ❑ This law states that “a system and its surroundings always proceed to a state of maximum disorder or maximum entropy”.

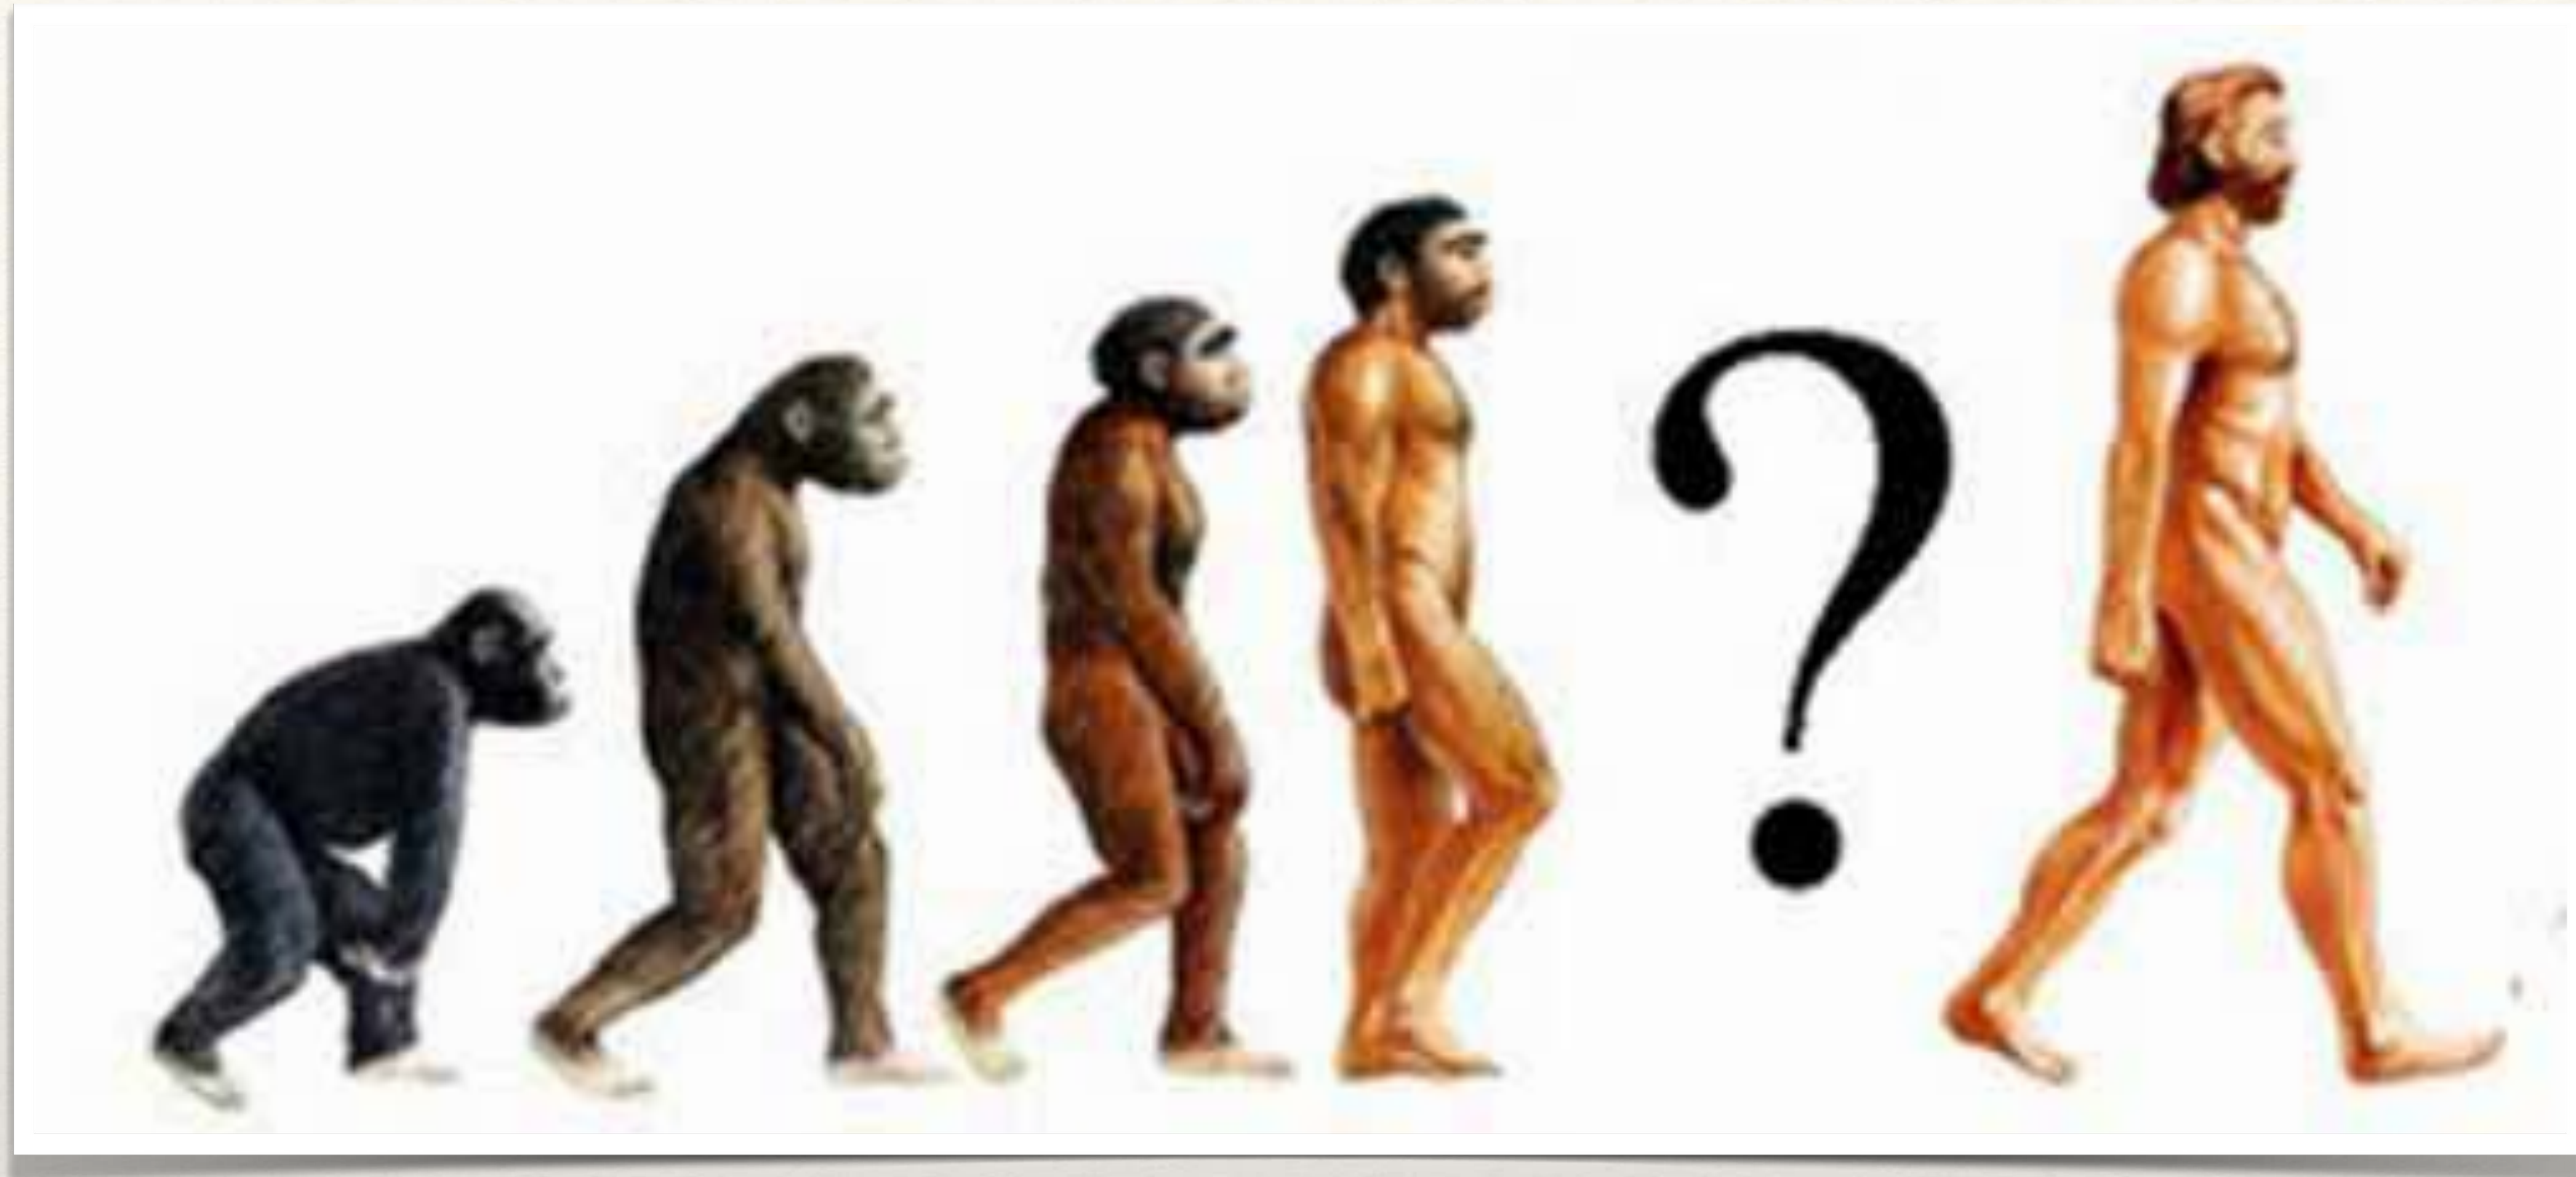

Rudolf Clausius(1822-1888)

The Law of Entropy

- ❖ A Universal **Law of Decay** for all living and non-living things
- ❖ All things tend toward less stability and order over time
- ❖ Science has **never** proven that this law can be circumvented:
 - ❖ "There is **no recorded experiment** in the history of science that **contradicts** the second law or its corollaries..." (Physicists G.N. Hatspoulous and E.P. Gyftopoulos)

- ❖ "Of all the statements that have been made with respect to theories on the origin of life, the statement that the **Second Law of Thermodynamics** poses no problem for an evolutionary origin of life is **the most absurd.**" (Duane Gish, Ph.D. in biochemistry from University of California at Berkeley)

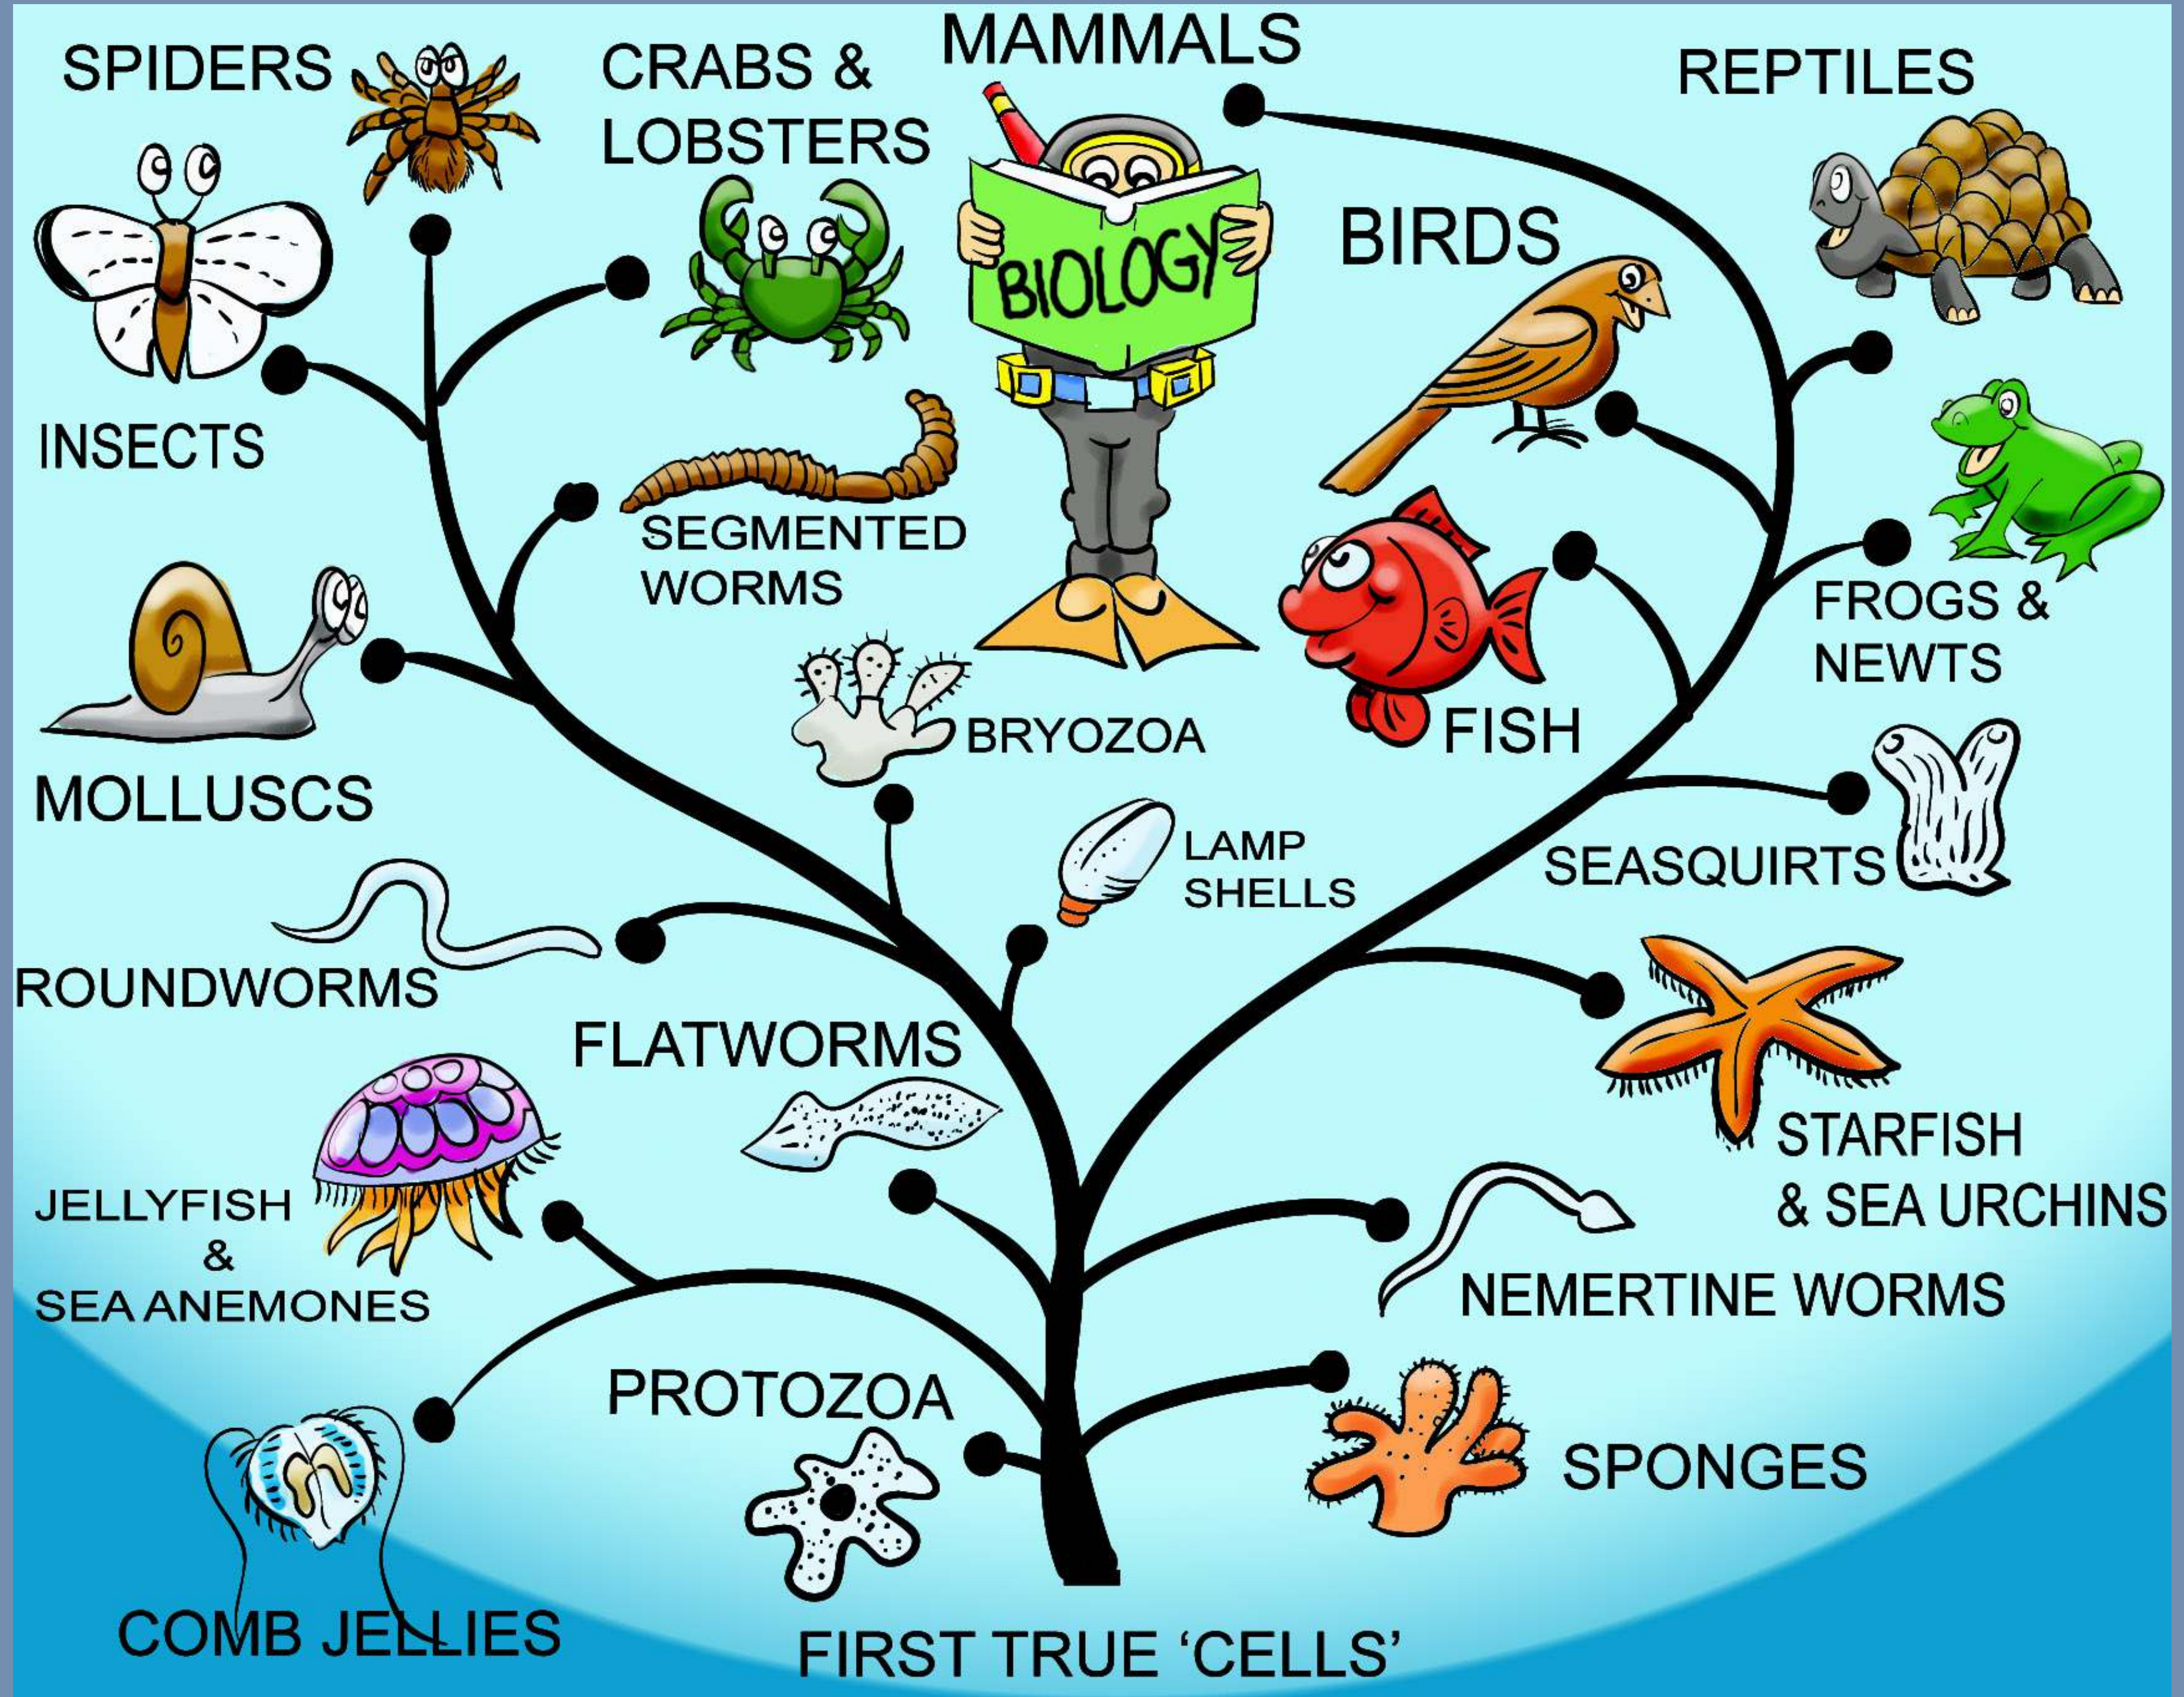

- ❖ How can the forces of **biological development from simple to complex (Darwin's Theory)** and the forces of **physical degeneration (Law of Entropy)** be operating at cross purposes?
- ❖ No scientist can answer that with scientific evidence.

Habeas Corpus! Oops!

The Fossil Record

**Darwin's Greatest Fear
Realized!**

Darwin Admitted: The Fossil Record is a Big Problem

- ❖ “But just in proportion as this process of extermination has acted on an enormous scale, **so must the number of intermediate varieties**, which have formerly existed, be **truly enormous**.
- ❖ Why then is not every geological formation and every stratum full of such intermediate links? **Geology assuredly does not reveal any such finely graduated organic chain**; and this, perhaps, is the **most obvious and serious objection** which can be urged against the theory.
- ❖ The explanation lies, as I believe, in the **extreme imperfection of the geological record.**” (Darwin: *Origin the Species*, Chapter 10, p. 280)

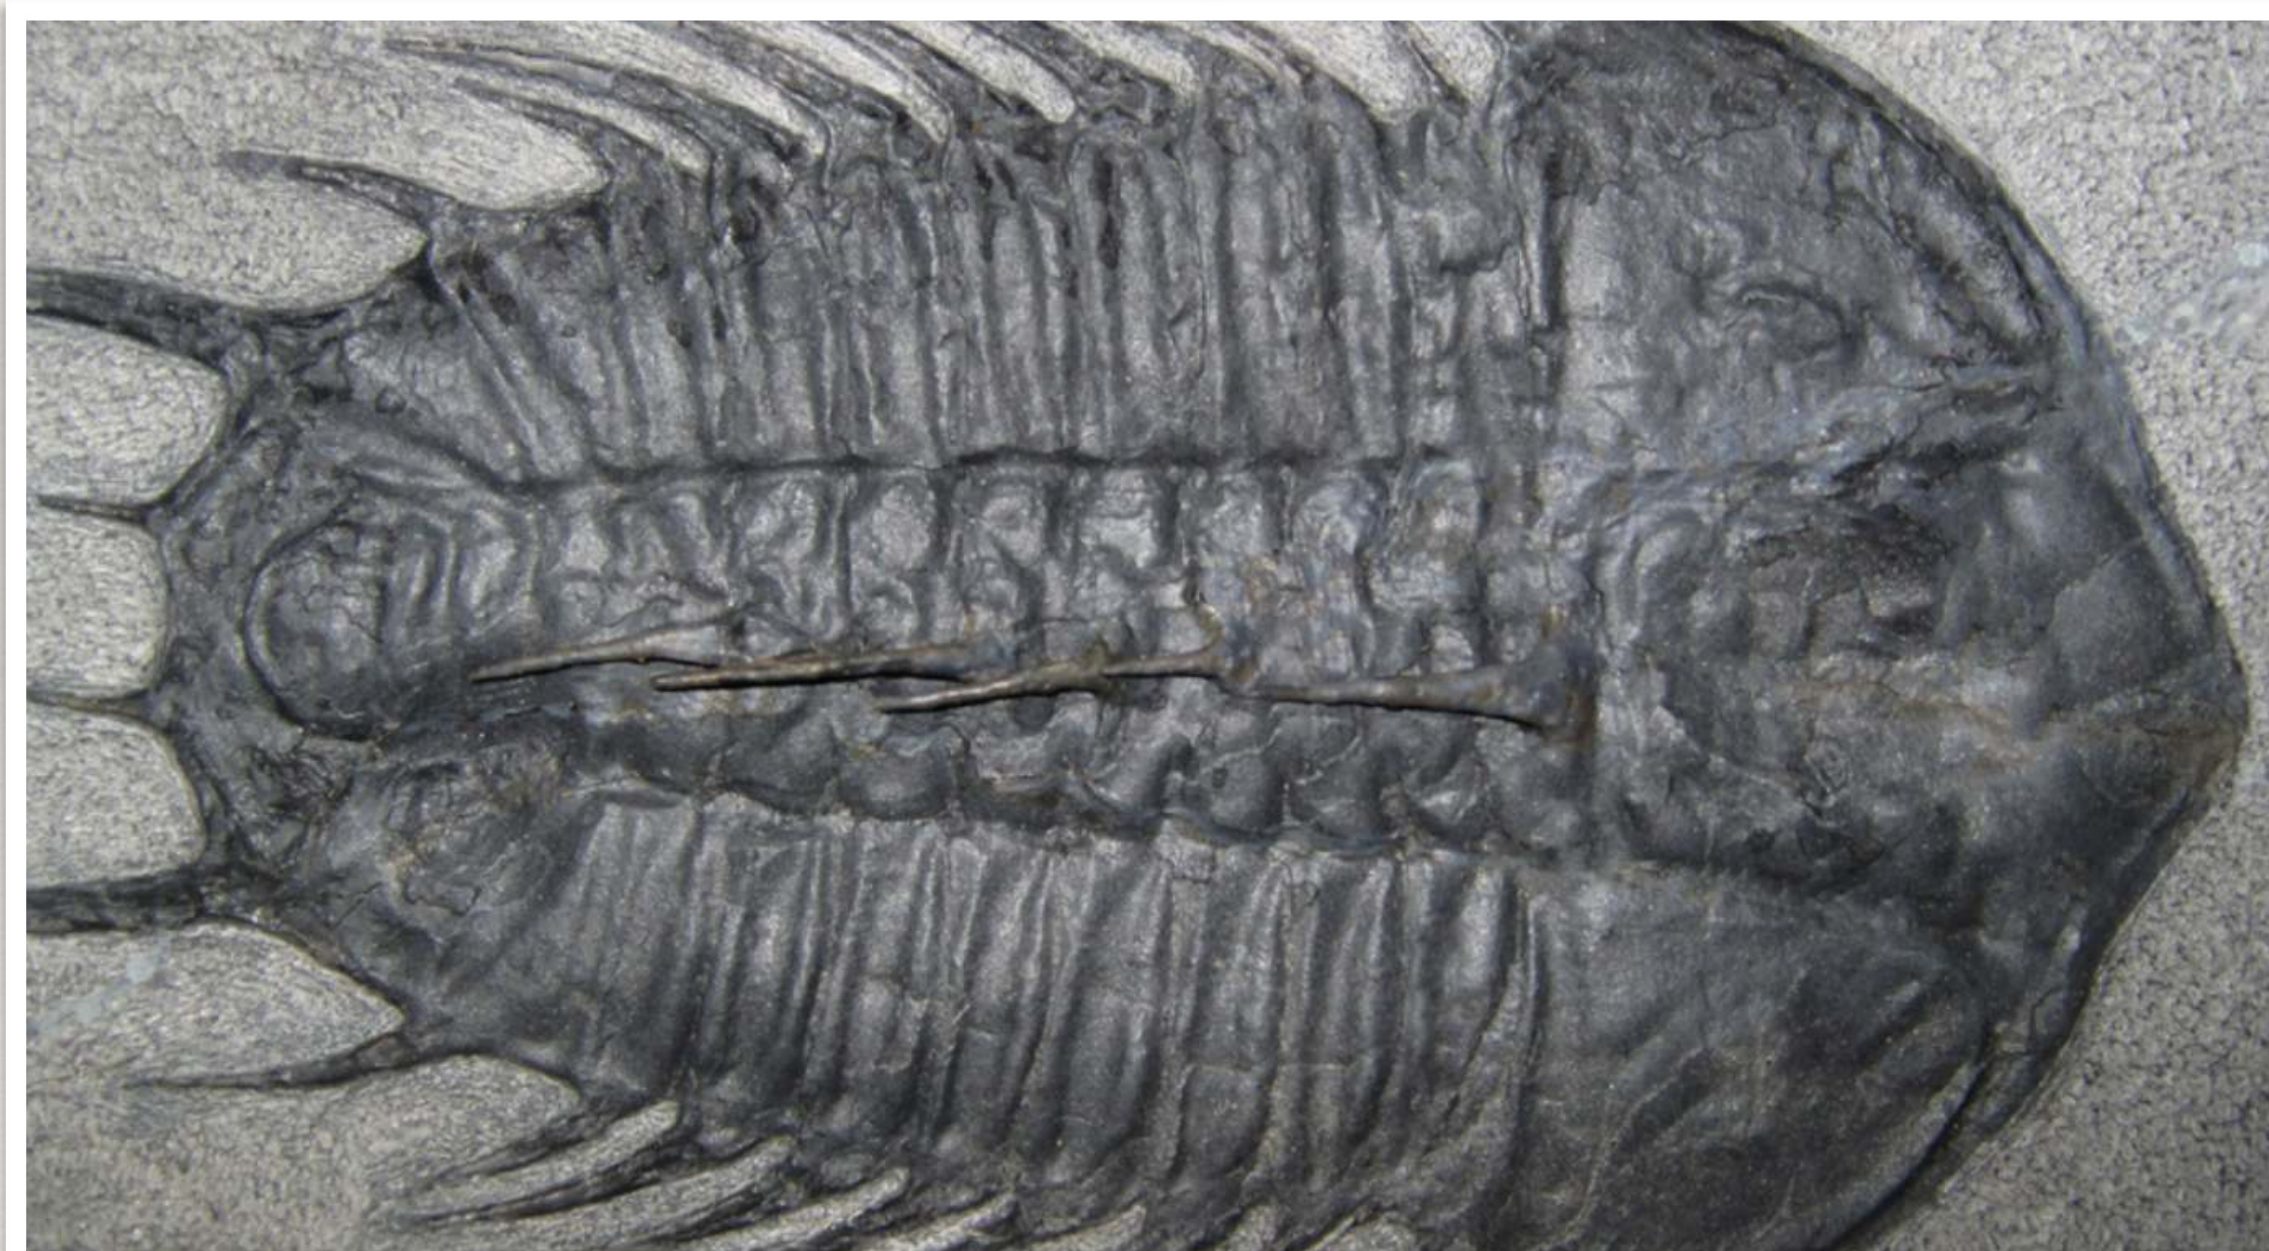

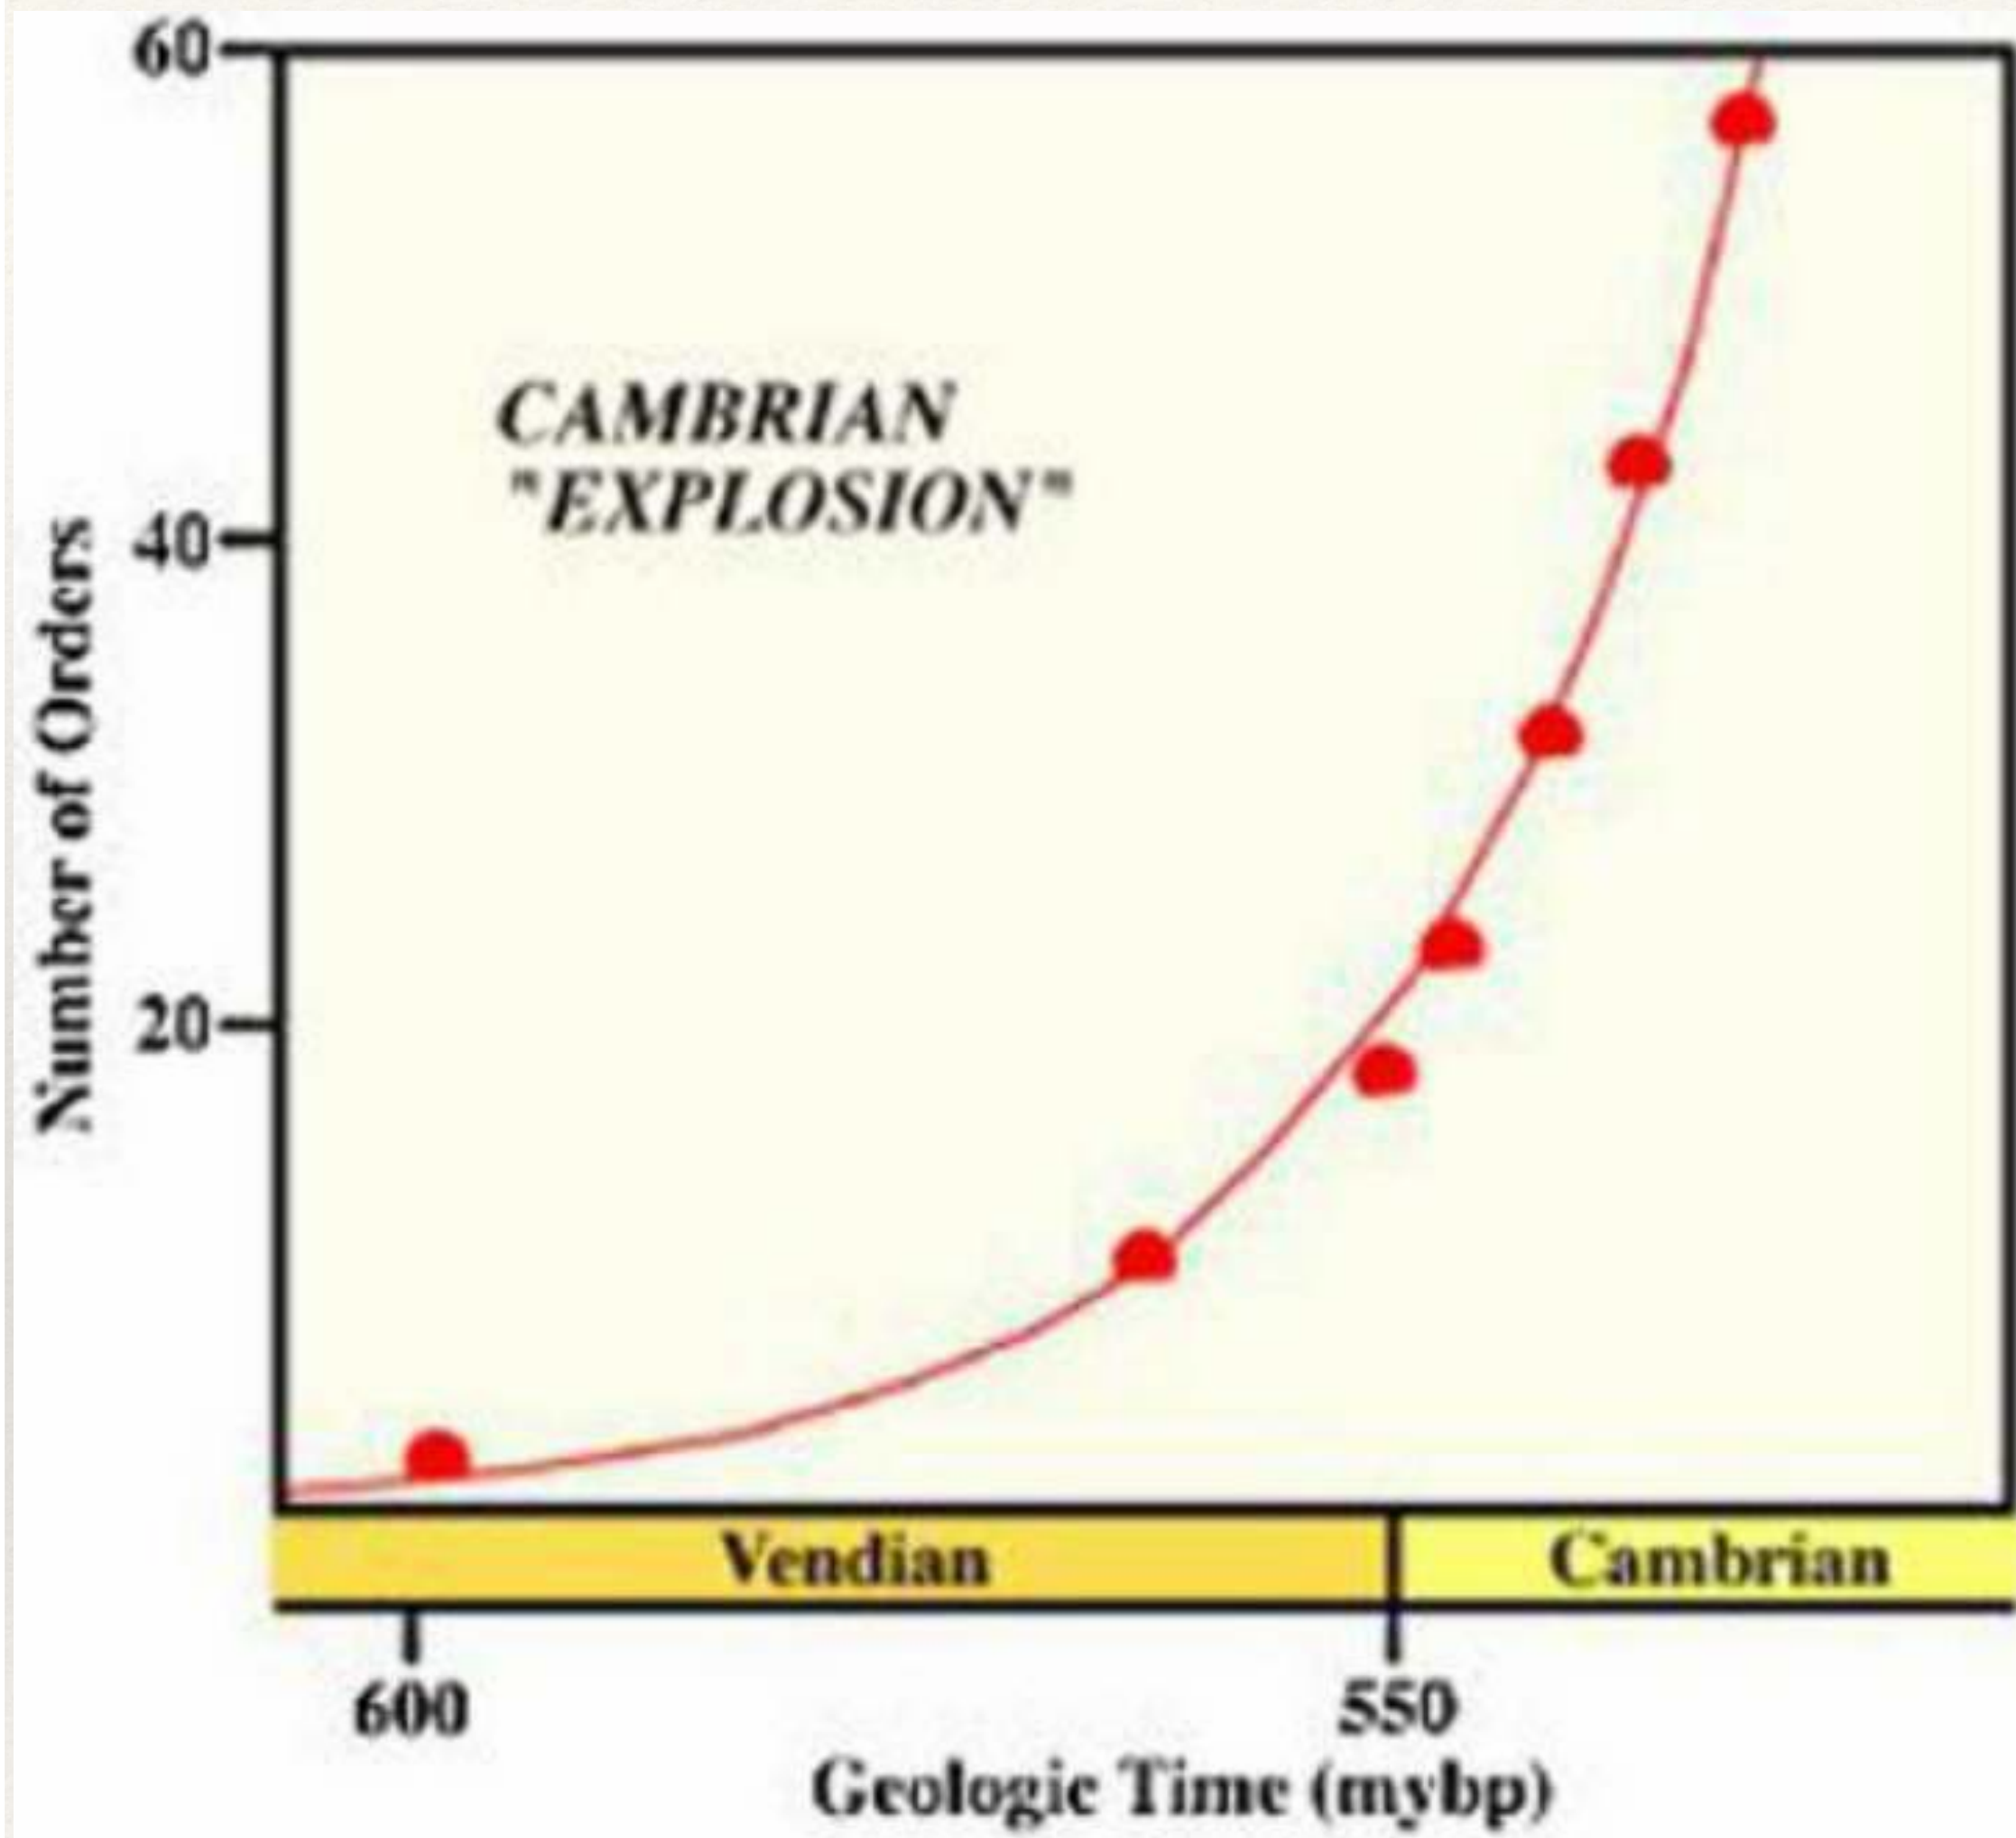

Darwin Got This Right!

- ❖ If it could be demonstrated that any complex organ existed which could not possibly have been formed by **numerous, successive, slight modifications, my theory would absolutely break down.**”
- ❖ Darwin, C. (1872) *Origin of Species*, 6th ed. (1988), New York University Press, New York, p. 154.

Two Main Problems Fossils Create for Darwin

- ❖ **Cambrian Explosion**
- ❖ **Absolutely no transitional fossils** to prove gradual modification between any two kinds of animals.

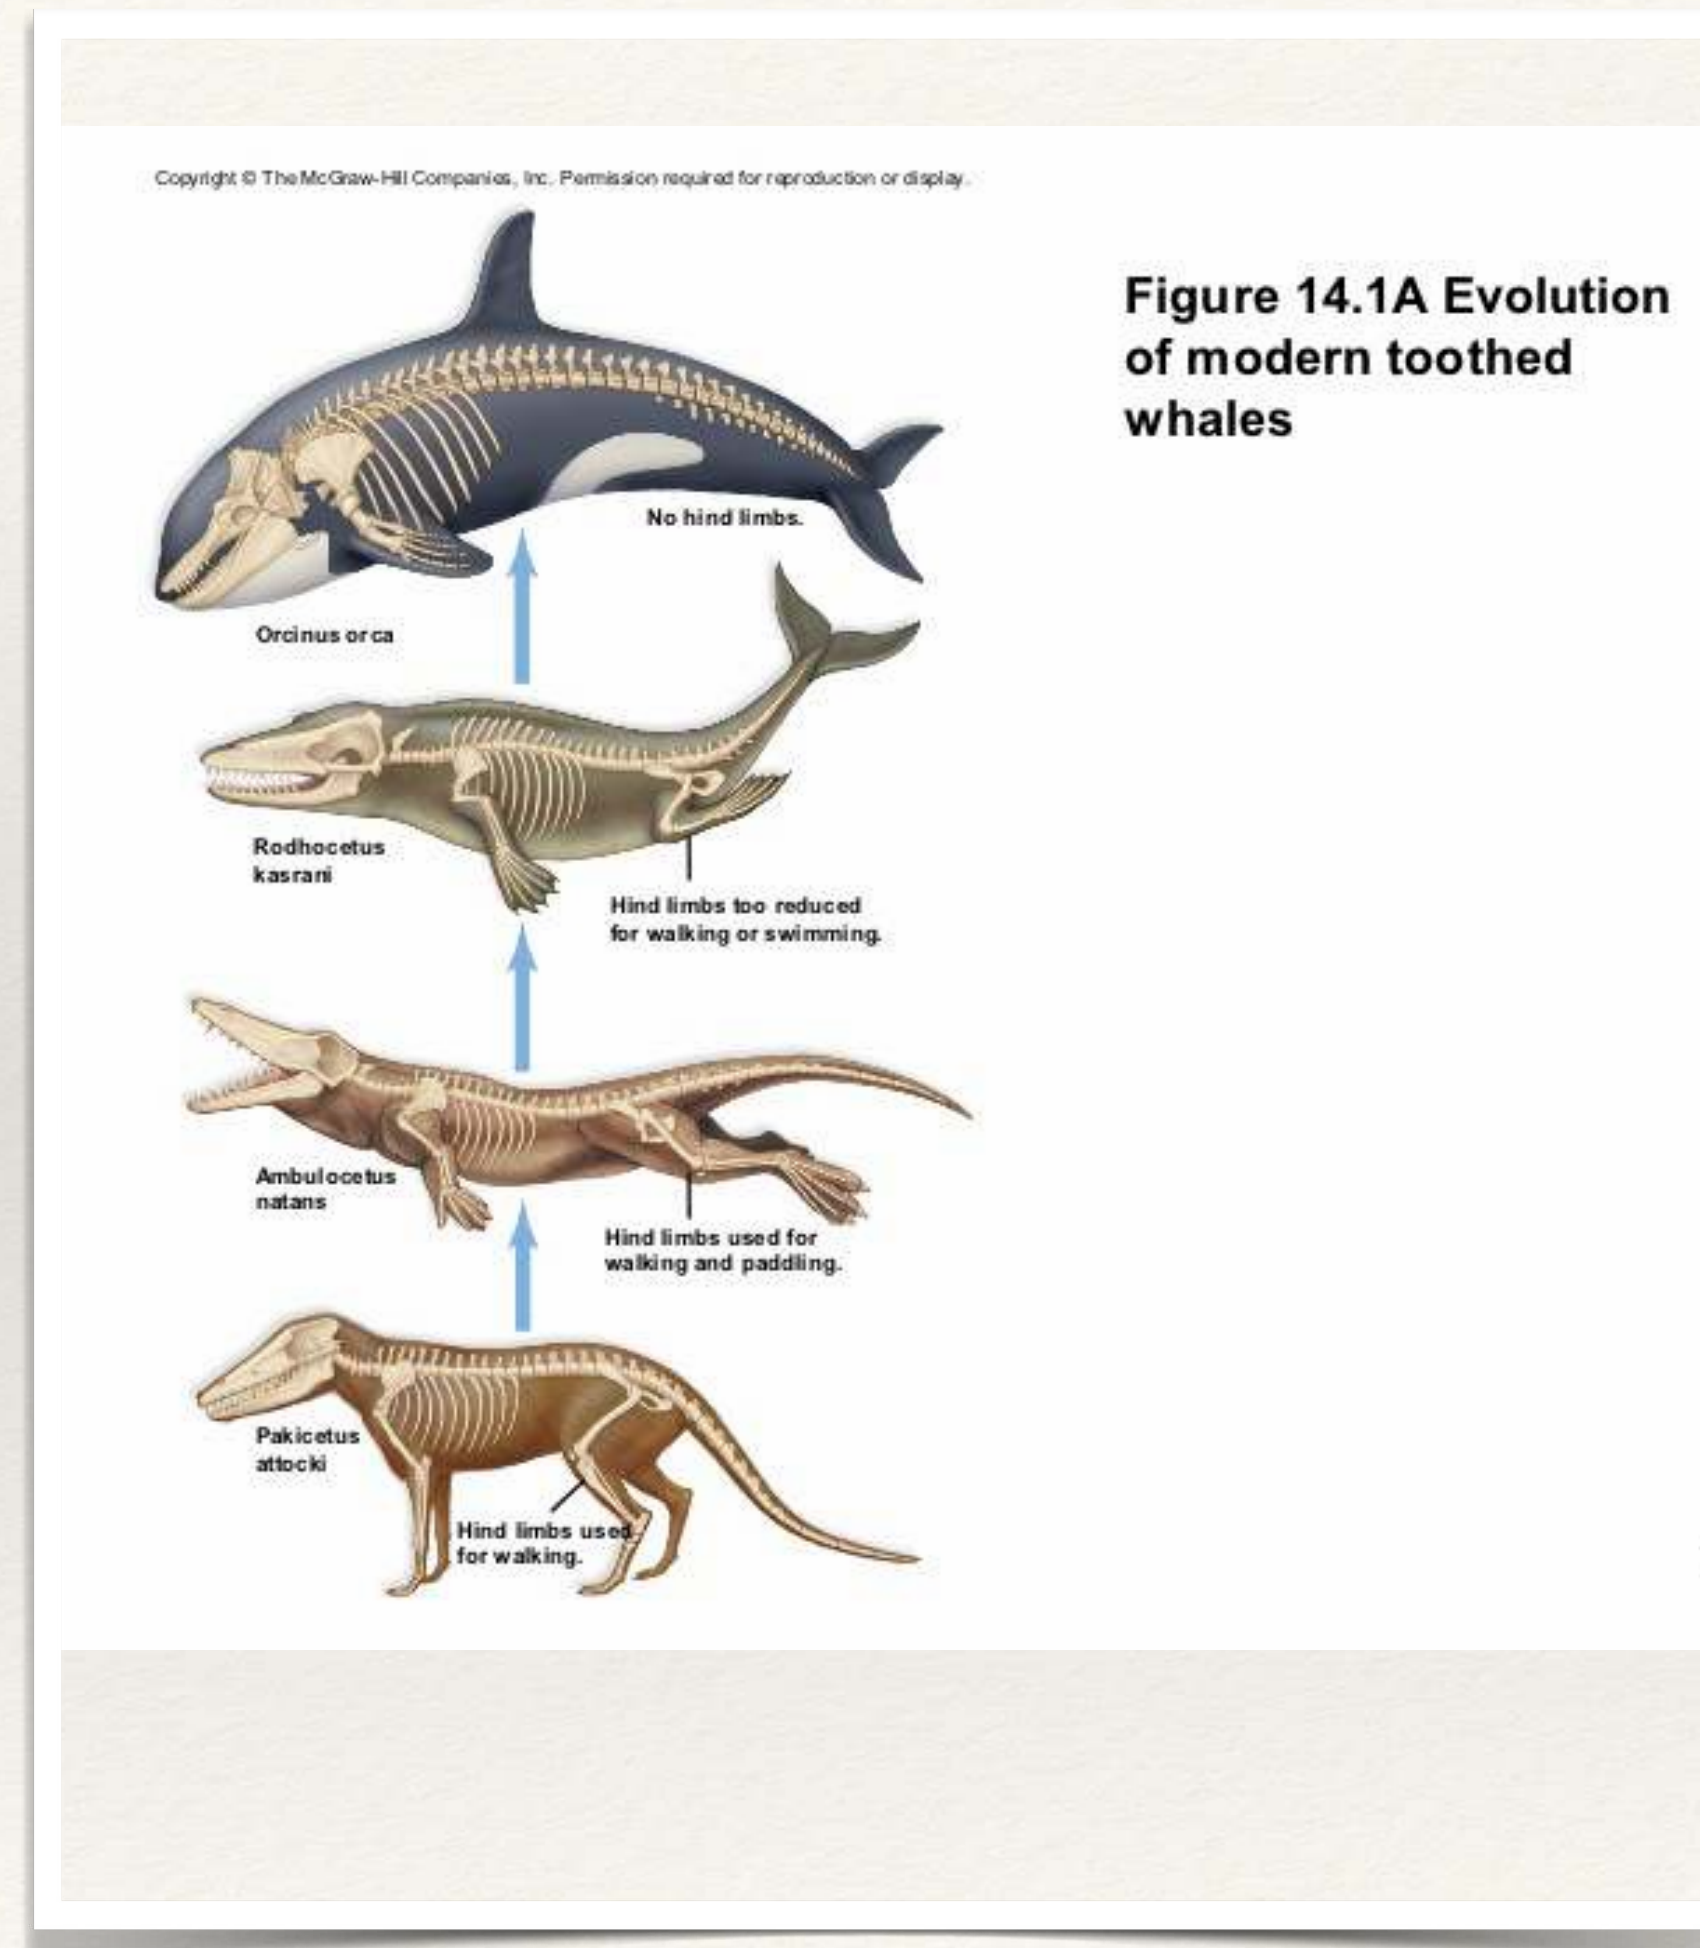

“Punctuated Equilibrium”

- ❖ **Richard Dawkins** explains the problem well: “Evolution is very possibly **not, in actual fact, always gradual**”
- ❖ But **it must be gradual** when it is being used to explain the coming into existence of complicated, apparently designed objects, like eyes.
- ❖ For if it is not gradual in these cases, it ceases to have any explanatory power at all. **“Without gradualness in these cases, we are back to miracle, which is simply a synonym for the total absence of explanation.”**

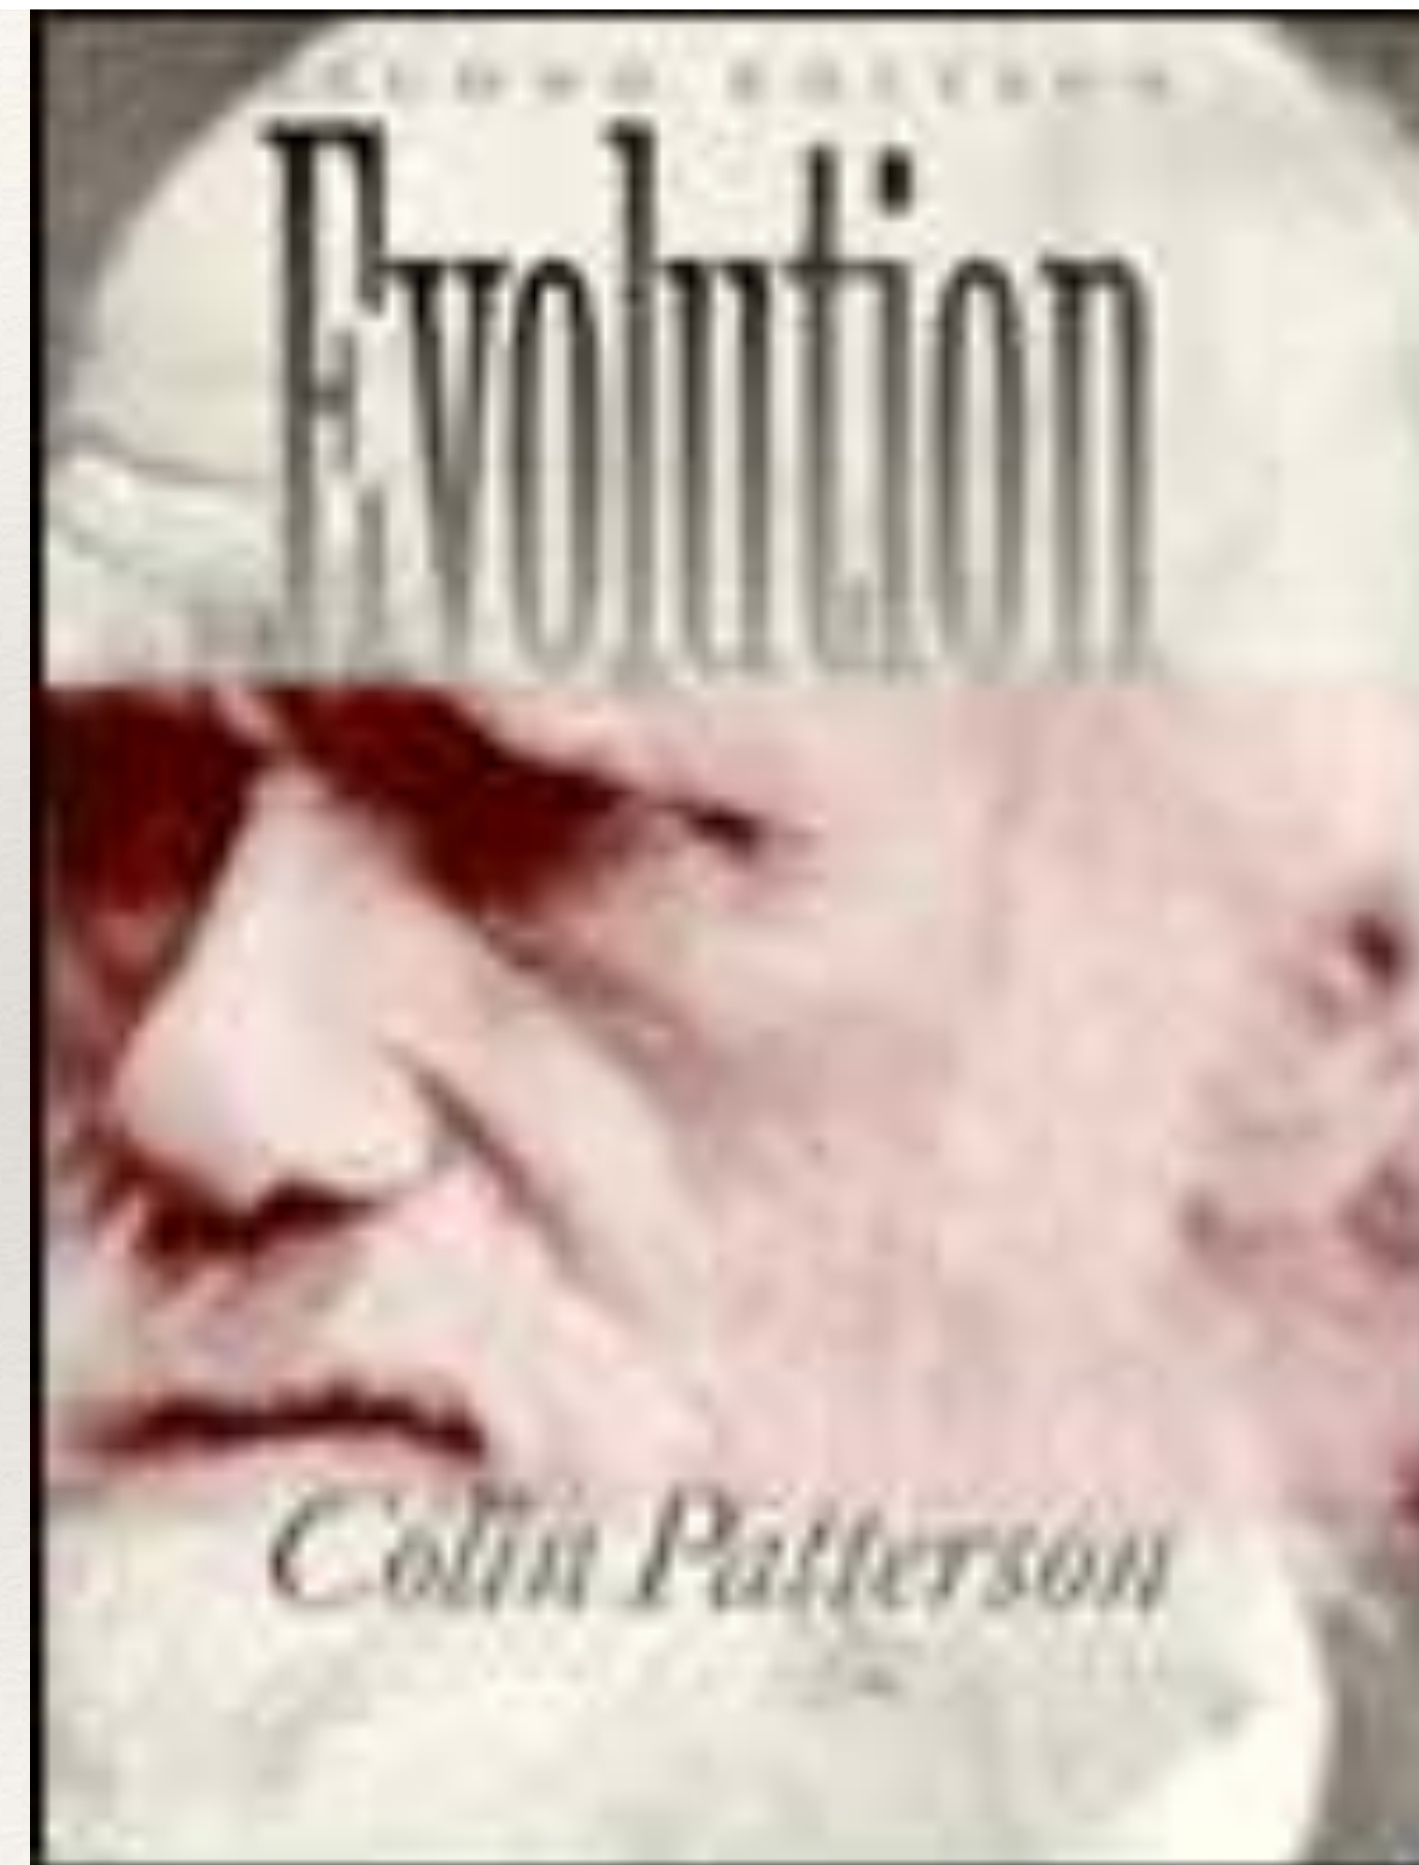

Transitional Fossils

- ❖ The remains of those creatures which should be found **'in-between'** one kind of creature and another kind as they evolved from one from to another.

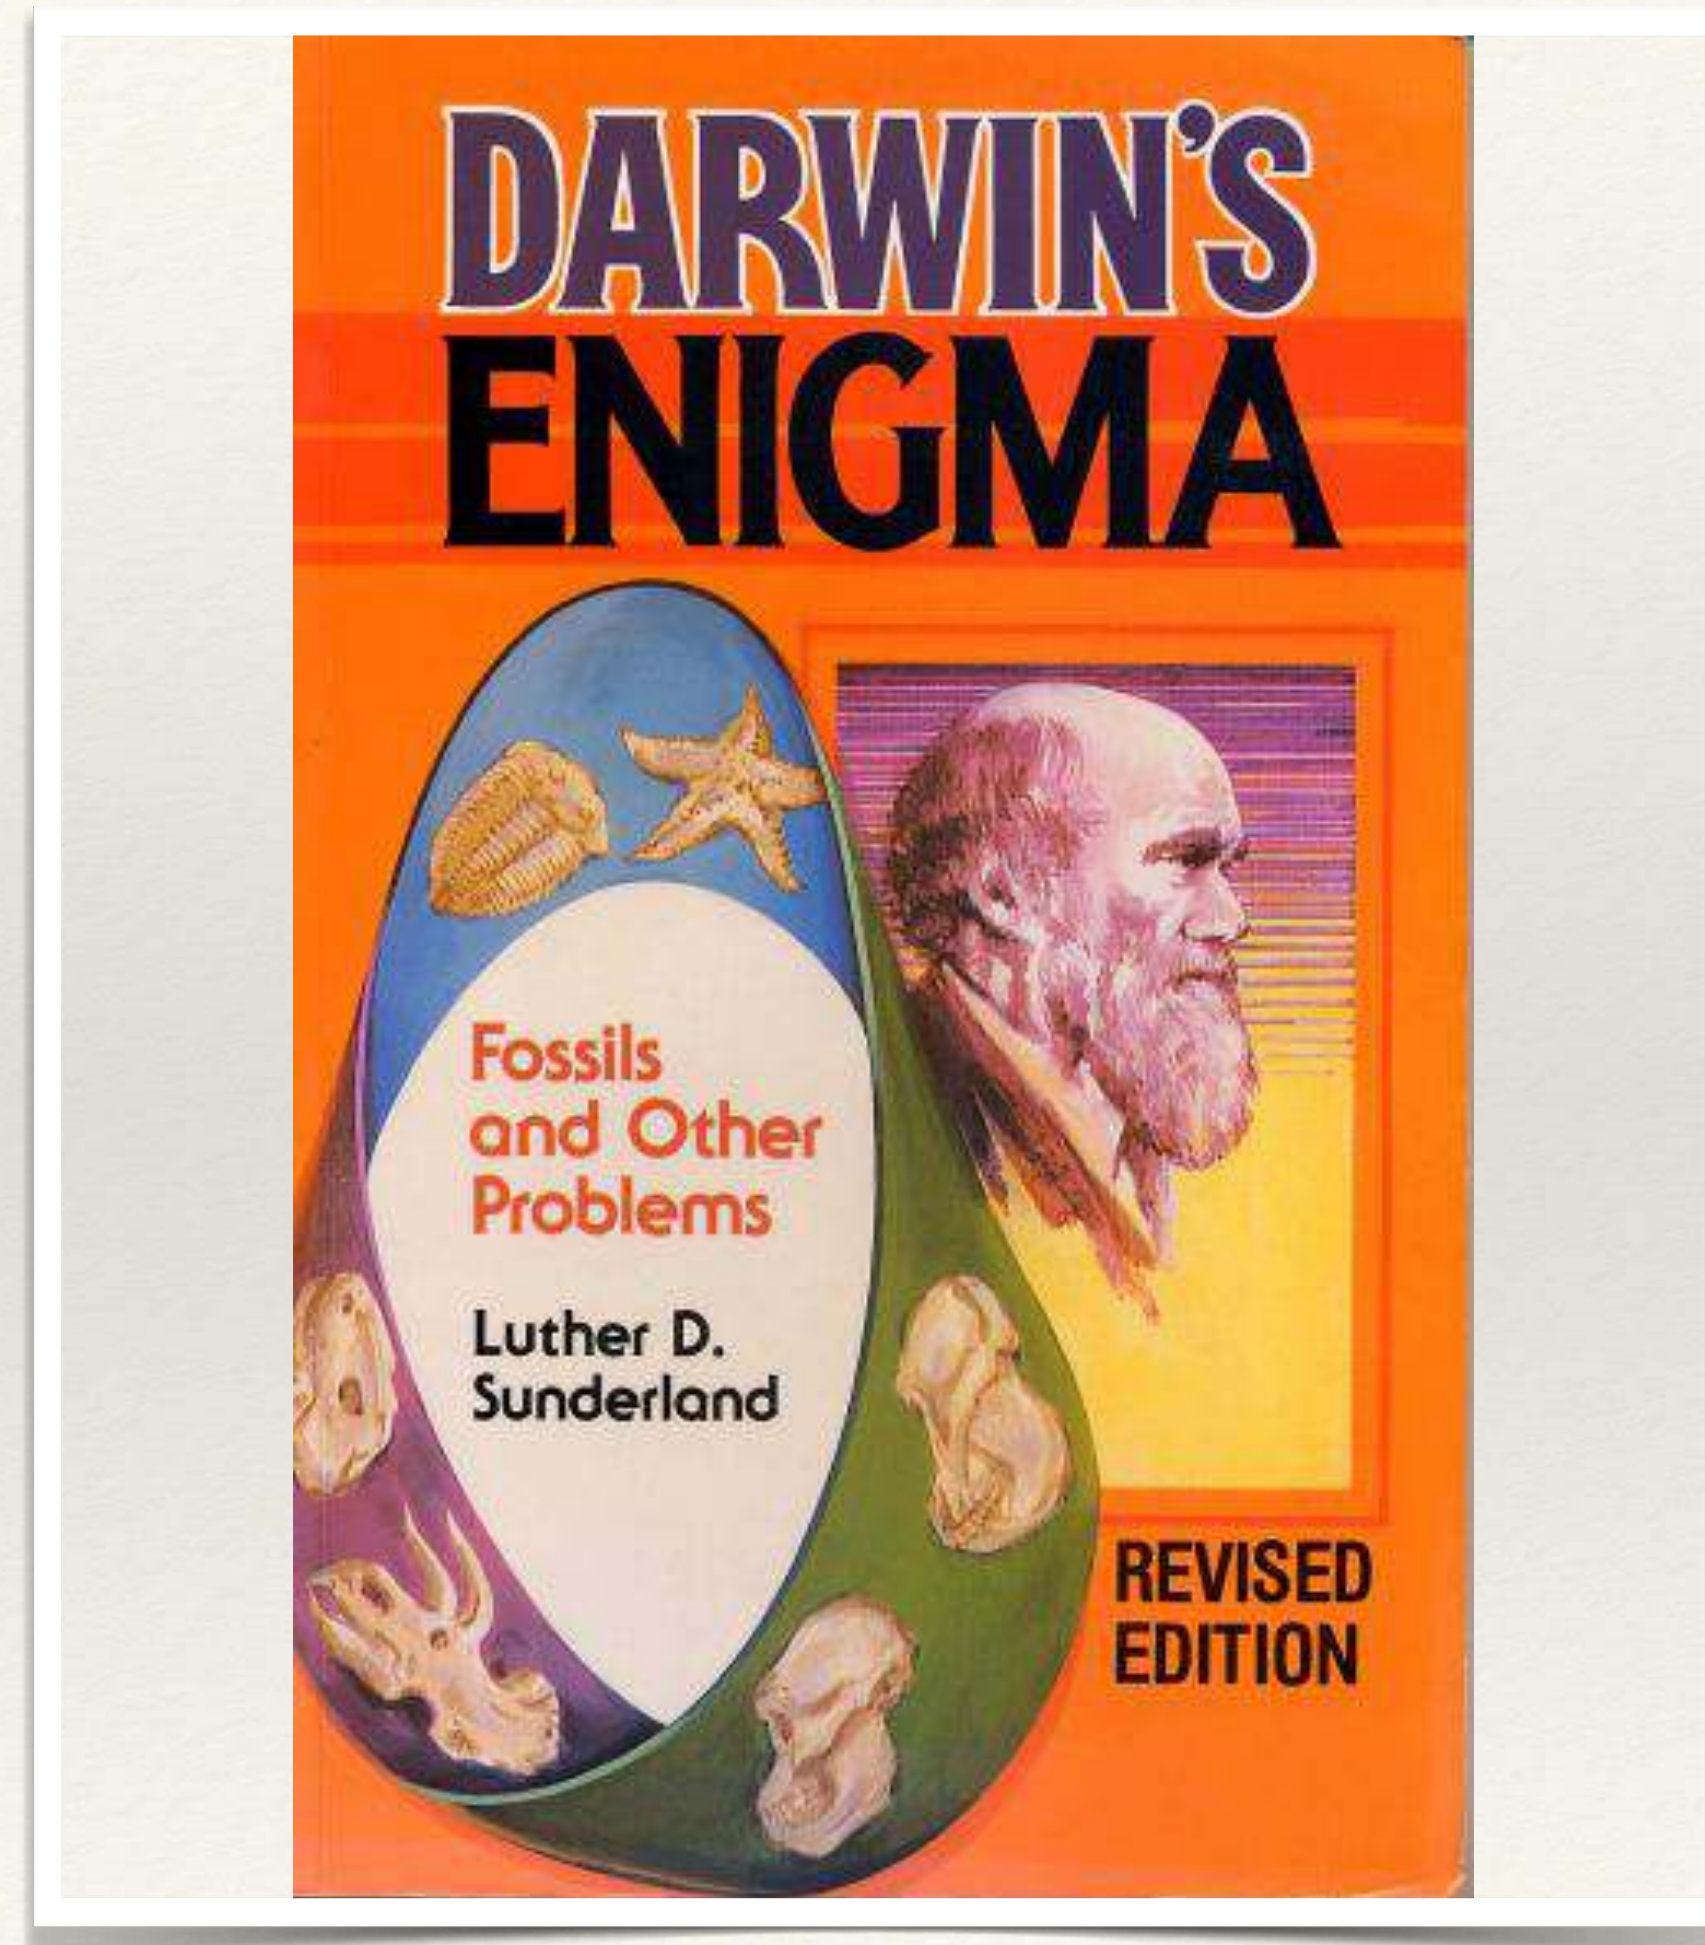

“Evolution” by Dr. Colin Patterson

- ❖ Dr Colin Patterson, a staunch evolutionist, wrote this book in 1978 while being the senior paleontologist (**fossil expert**) at the prestigious **British Museum of Natural History**.

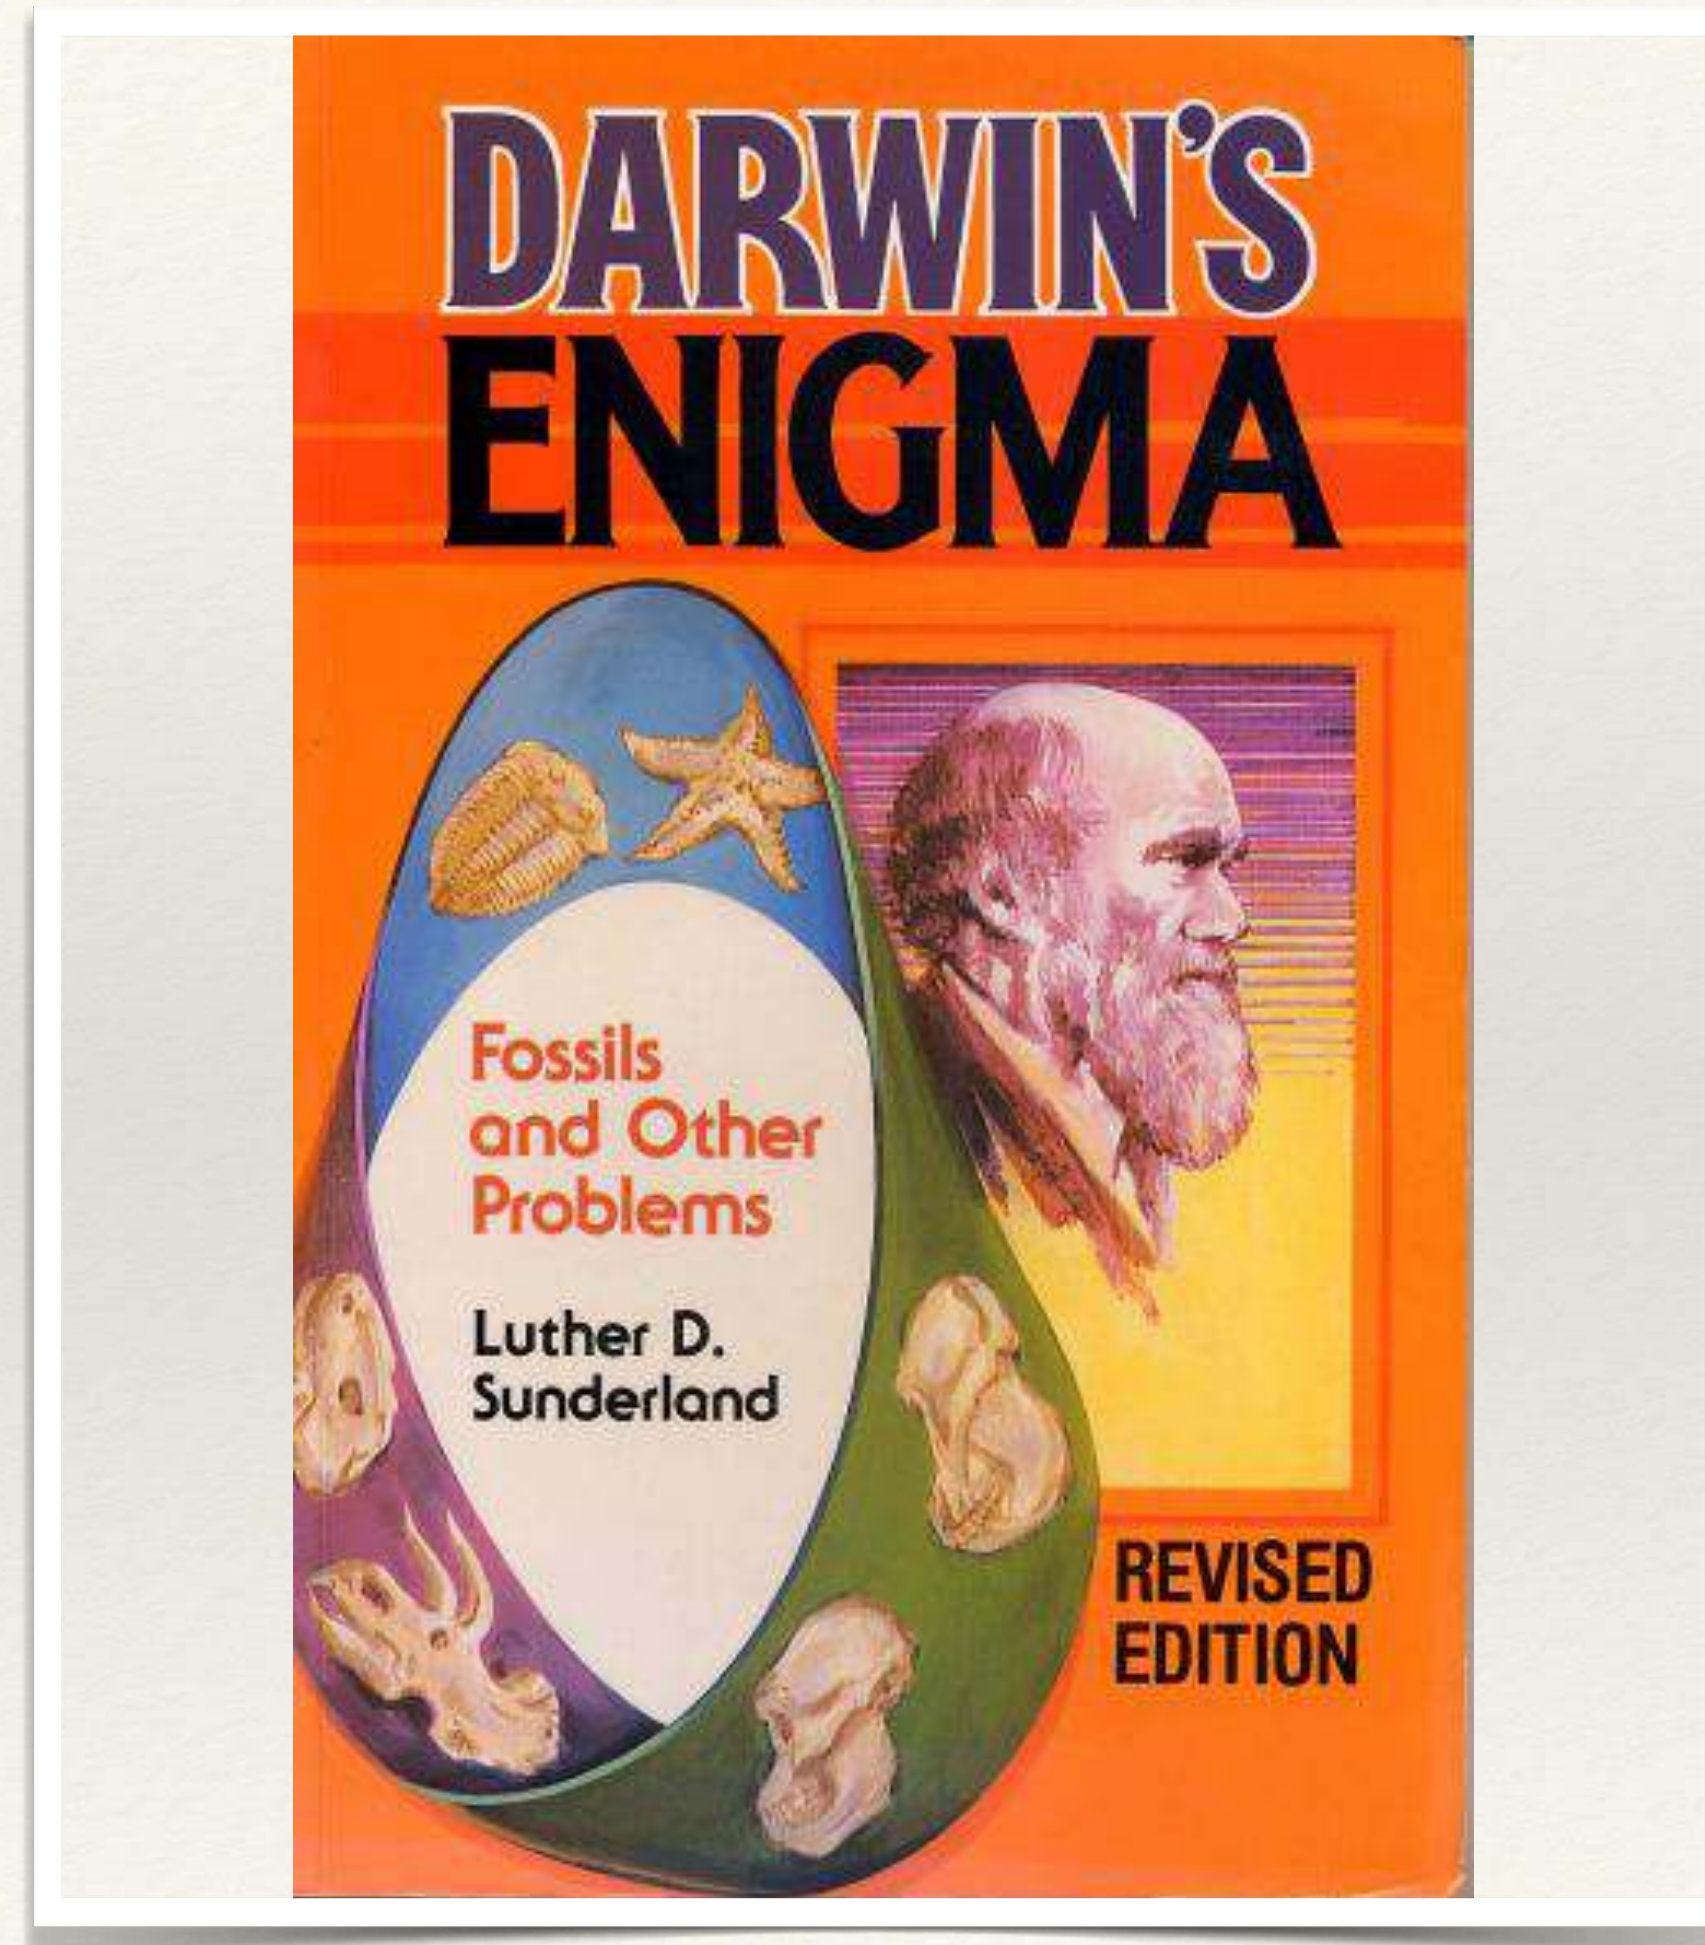

Dr. Colin Patterson's Confession

- ❖ Creationist Luther Sunderland wrote to Dr Patterson inquiring **why he had not shown one single photograph of a transitional fossil in his book.**
- ❖ Patterson wrote an **amazing confession** which was included in Sunderland's book **Darwin's Enigma:**
- ❖ **Free copy here:** <http://www.creationism.org/books/sunderland/DarwinsEnigma/>

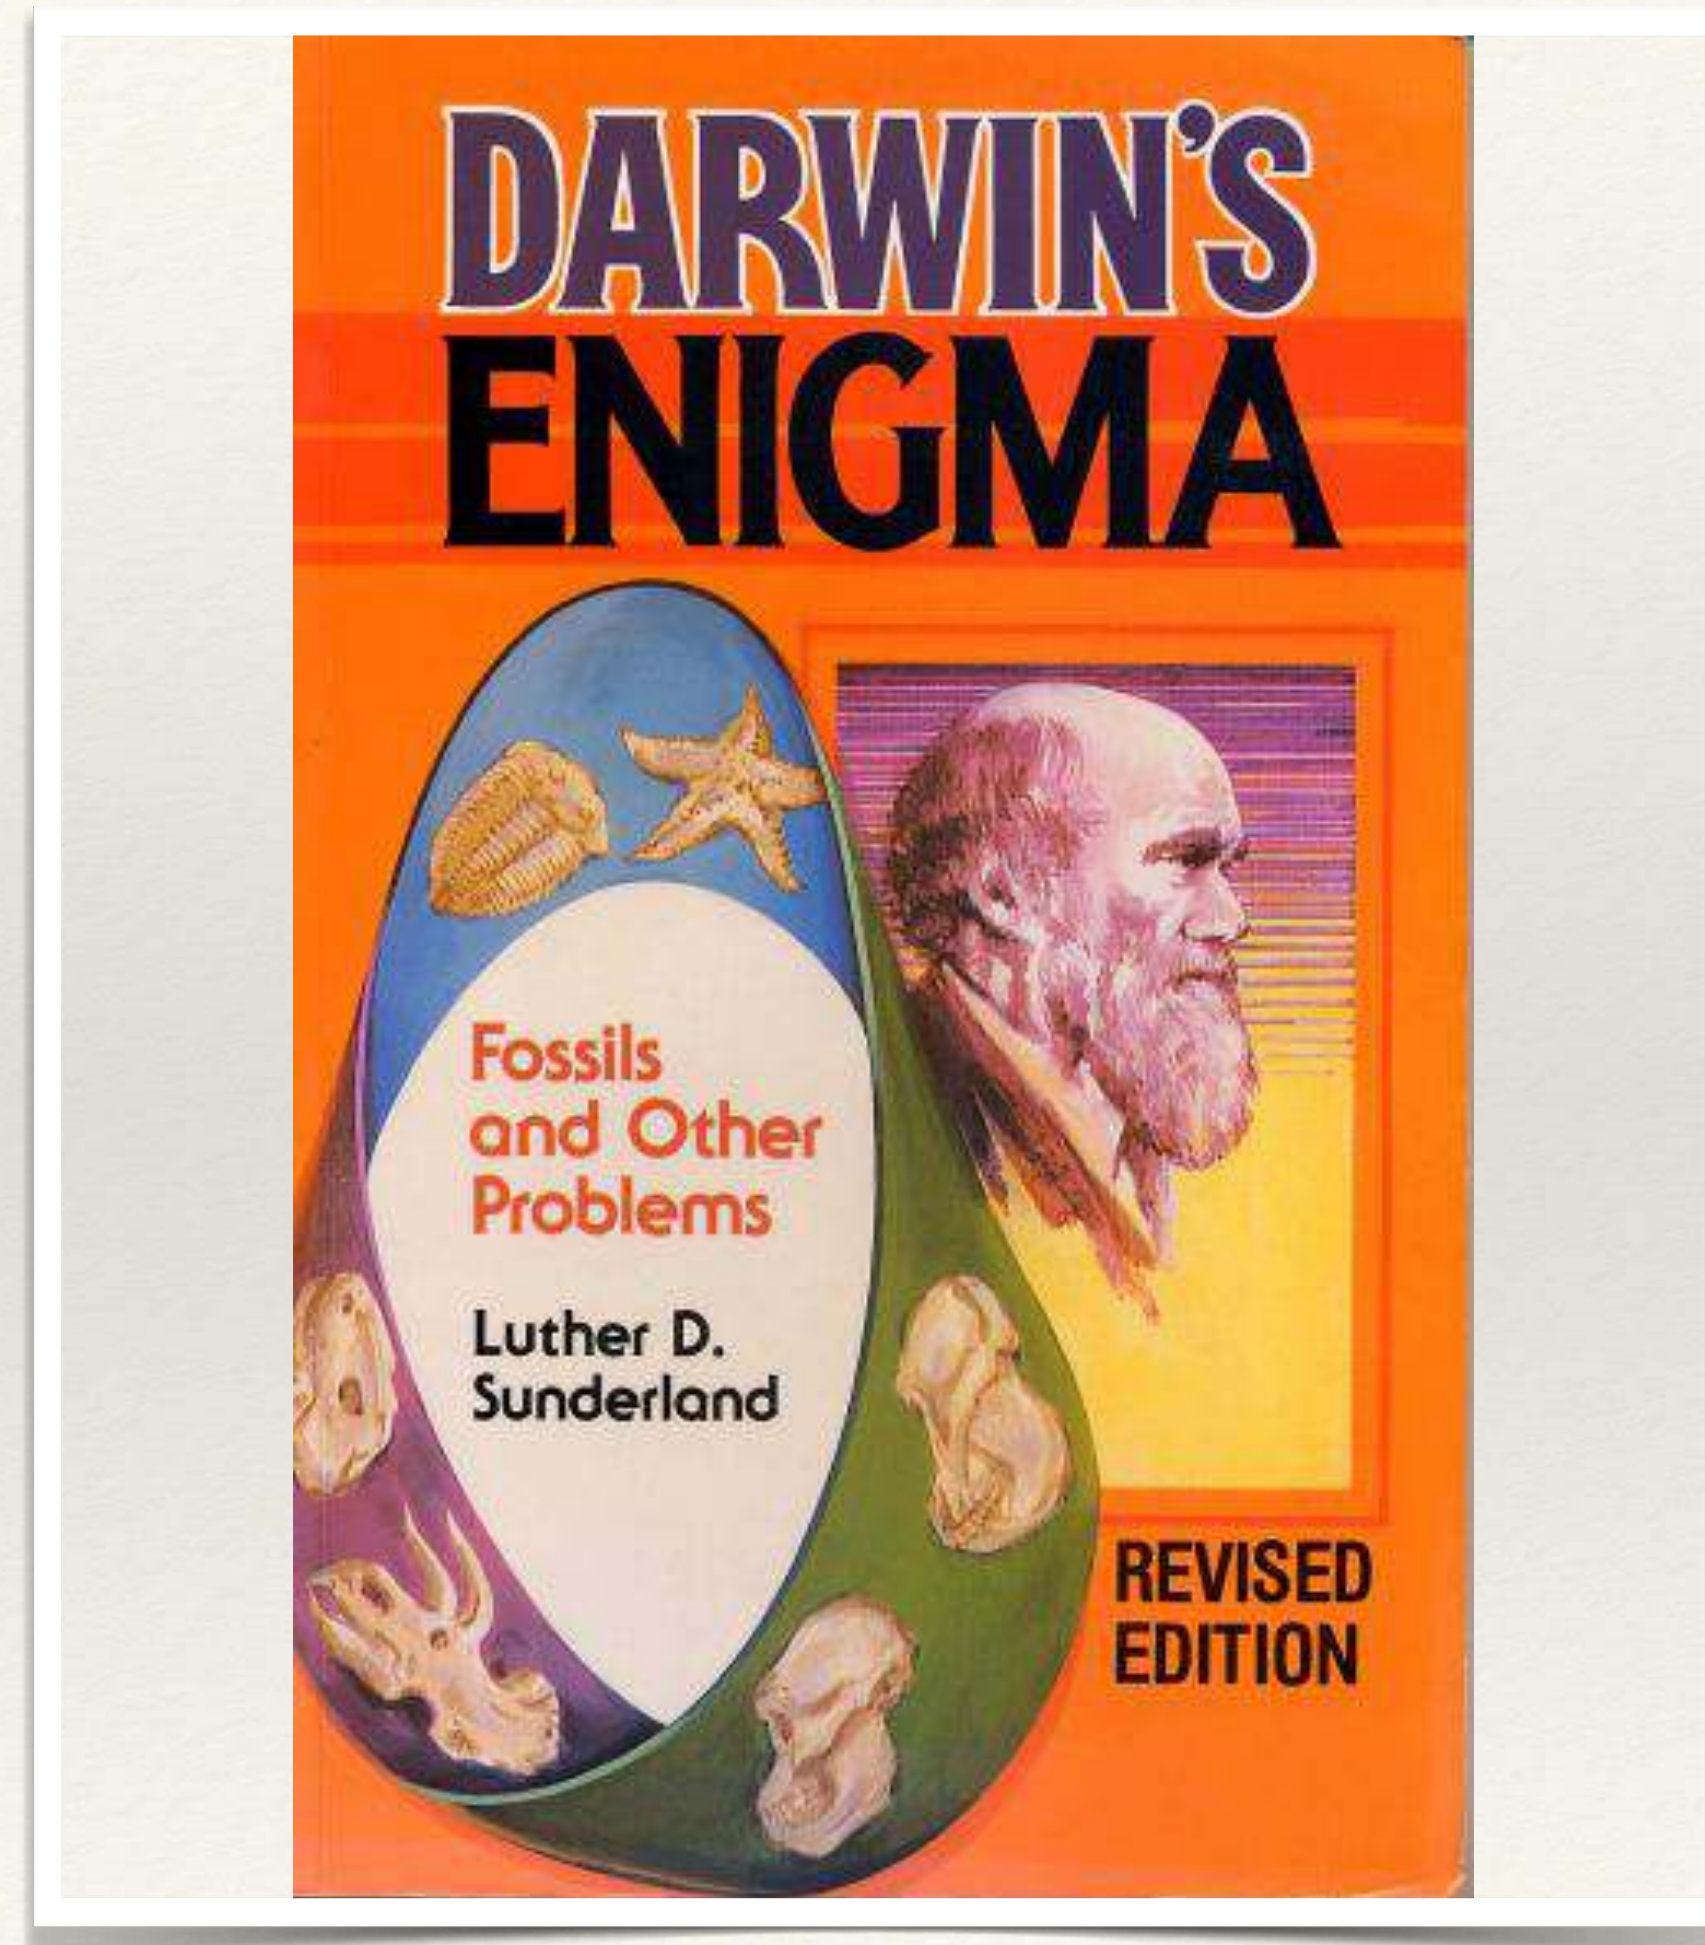

Dr. Colin Patterson's Confession

- ❖ "I fully agree with your comments on the lack of direct illustration of evolutionary transitions in my book.
- ❖ If I knew of any, fossil or living, I would certainly have included them.
- ❖ You suggest that an artist should be used to visualise such transformations, but where would he get the information from?
- ❖ I could not, honestly, provide it, and if I were to leave it to artistic licence, would that not mislead the reader?"

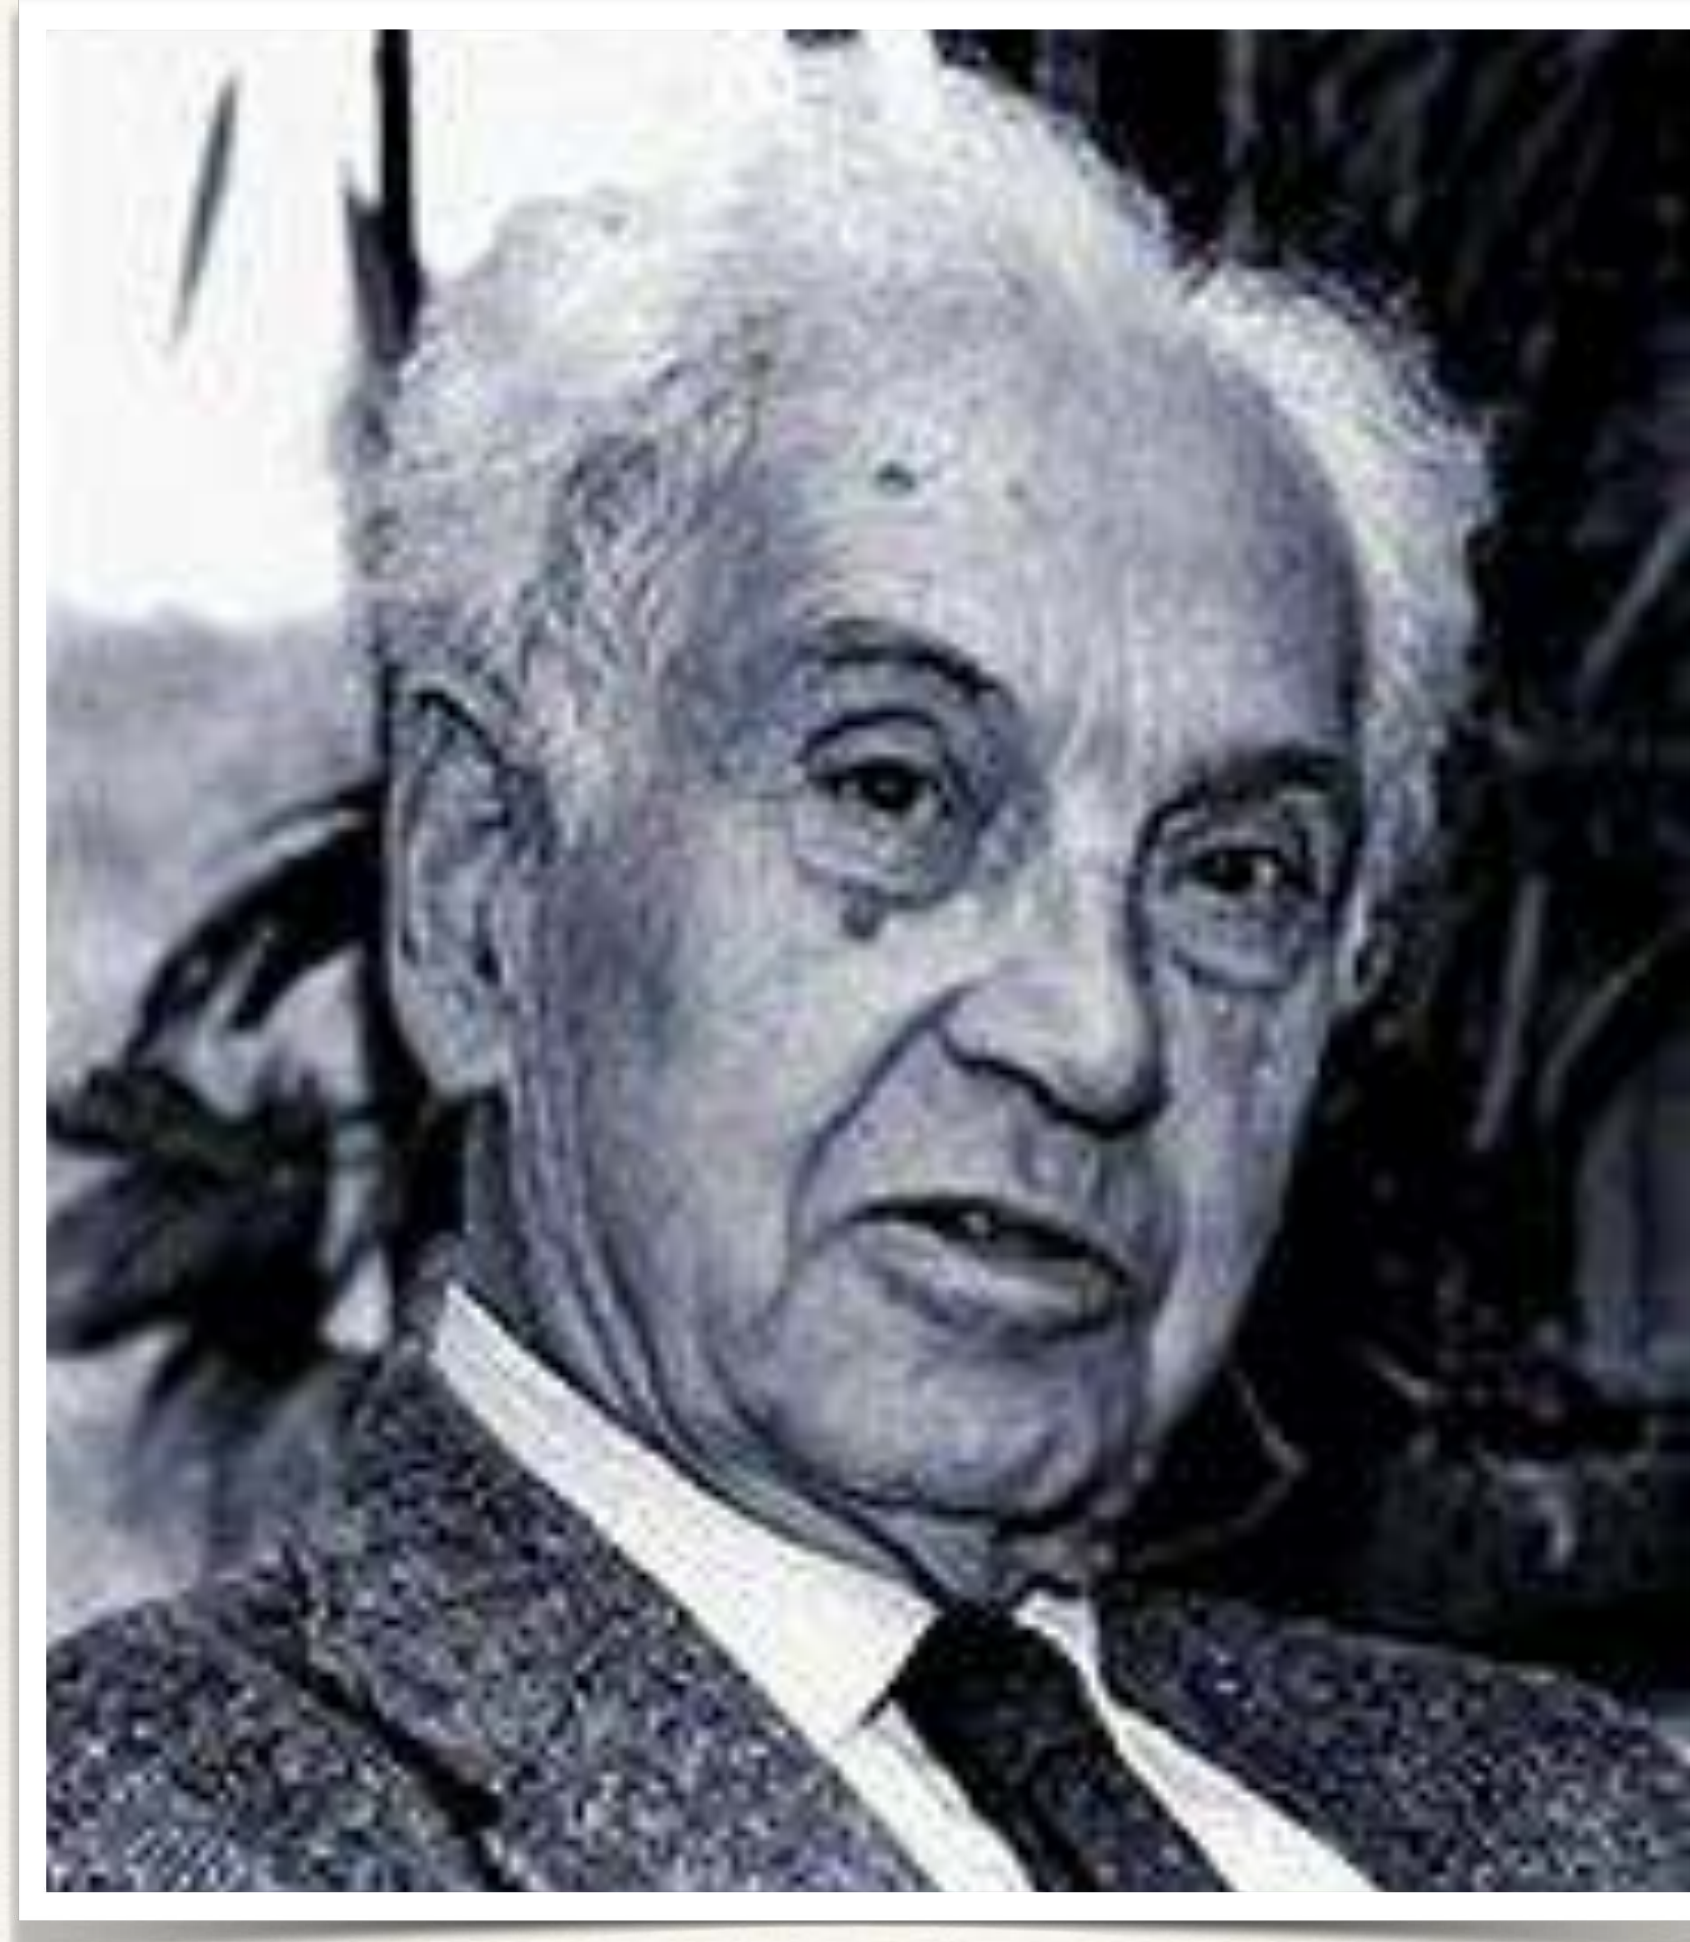

Dr. Colin Patterson's Confession

- ❖ He went on to say:
- ❖ 'Yet Gould [Stephen J. Gould—the now deceased professor of paleontology from Harvard University] and the American Museum people are hard to contradict when they say **there are no transitional fossils. ...**
- ❖ You say that I should at least “show a photo of the fossil from which each type of organism was derived.” I will lay it on the line—**there is not one such fossil for which one could make a watertight argument.”**

Dr. Ernst Mayr

- ❖ Prominent Harvard biologist in 1980's who also served as the **Director of Harvard's Museum of Comparative Zoology.**
- ❖ Mayr was a **staunch evolutionist and atheist** who maintained that evolution was a fact.
- ❖ In 1982 Mayr admitted: **"Even the fossil record fails to substantiate any continuity and all novelties appear in the fossil record quite suddenly."** (http://www.conservapedia.com/Evolution_and_the_fossil_record#cite_note-creationscience.com-1)

Not One!

- ❖ 100,000,000 fossils collected by 2020
- ❖ **NOT ONE FOSSIL OF A TRANSITIONAL CREATURE** BETWEEN ANY TWO KINDS OF ANIMALS

Archaeopteryx: Transitional Fossil Fail

- ❖ Called a transitional form between reptiles and birds
- ❖ **Dr. Alan Feduccia**, a world authority on birds and an **evolutionist himself**, has stated the following regarding Archaeopteryx:
- ❖ “Paleontologists have tried to turn Archaeopteryx into an earth-bound, feathered dinosaur. **But it’s not.** It is a bird, a perching bird. And no amount of ‘paleobabble’ is going to change that.” (ibid:conservapedia.com)

Dr. Mark Ridley of OxFord U.

- ❖ Today there are over **one hundred million** identified and cataloged fossils in the world's museums.
- ❖ In 1981, evolutionist **Dr. Mark Ridley**, who was **Professor of Zoology at Oxford University**, was forced to confess: "In any case, **no real evolutionist**, whether gradualist or punctuationist, **uses the fossil record as evidence in favour of the theory of evolution as opposed to special creation.**" (http://www.conservapedia.com/Evolution_and_the_fossil_record)

Science Makes Mistake

- ❖ **1983**, astronomer **Carl Sagan** coauthored an article in *Science* that shook the world: "Nuclear Winter: Global Consequences of Multiple Nuclear Explosions". **In 1990, he said he was way off in his calculations.**

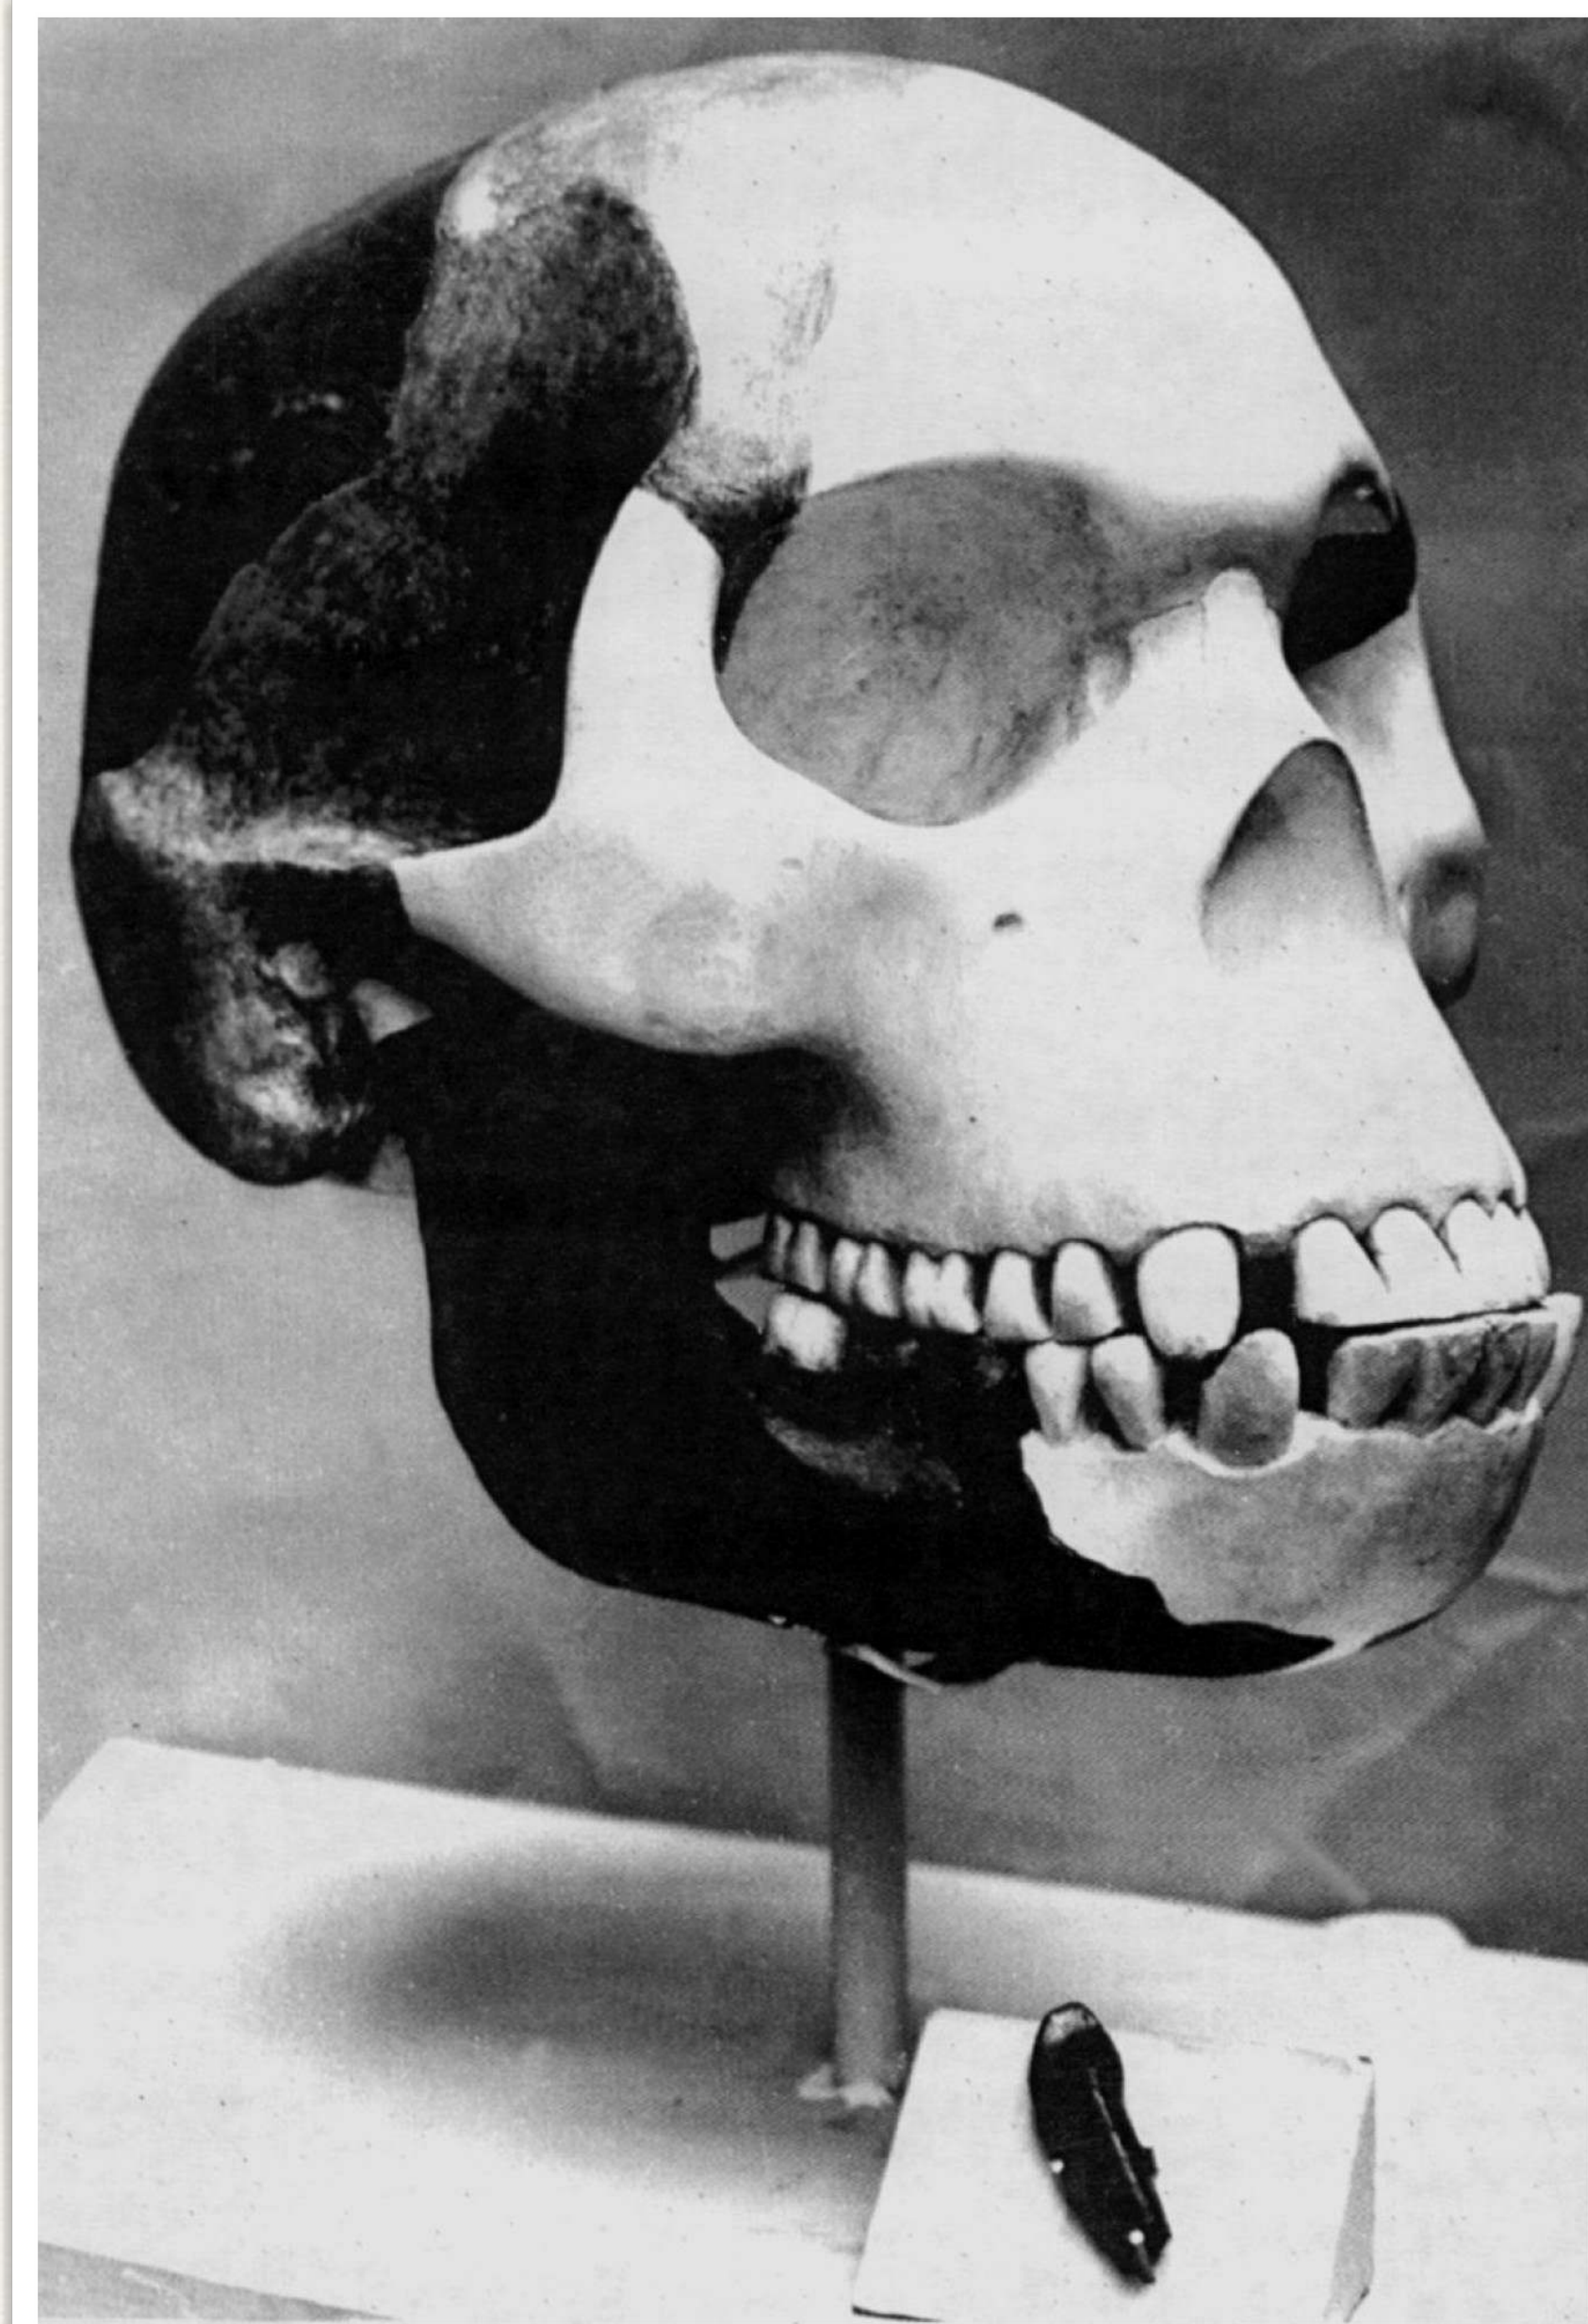

Fooled Scientists for 40 years

Pitdown Man, 1912

Thought to be **THE** missing link

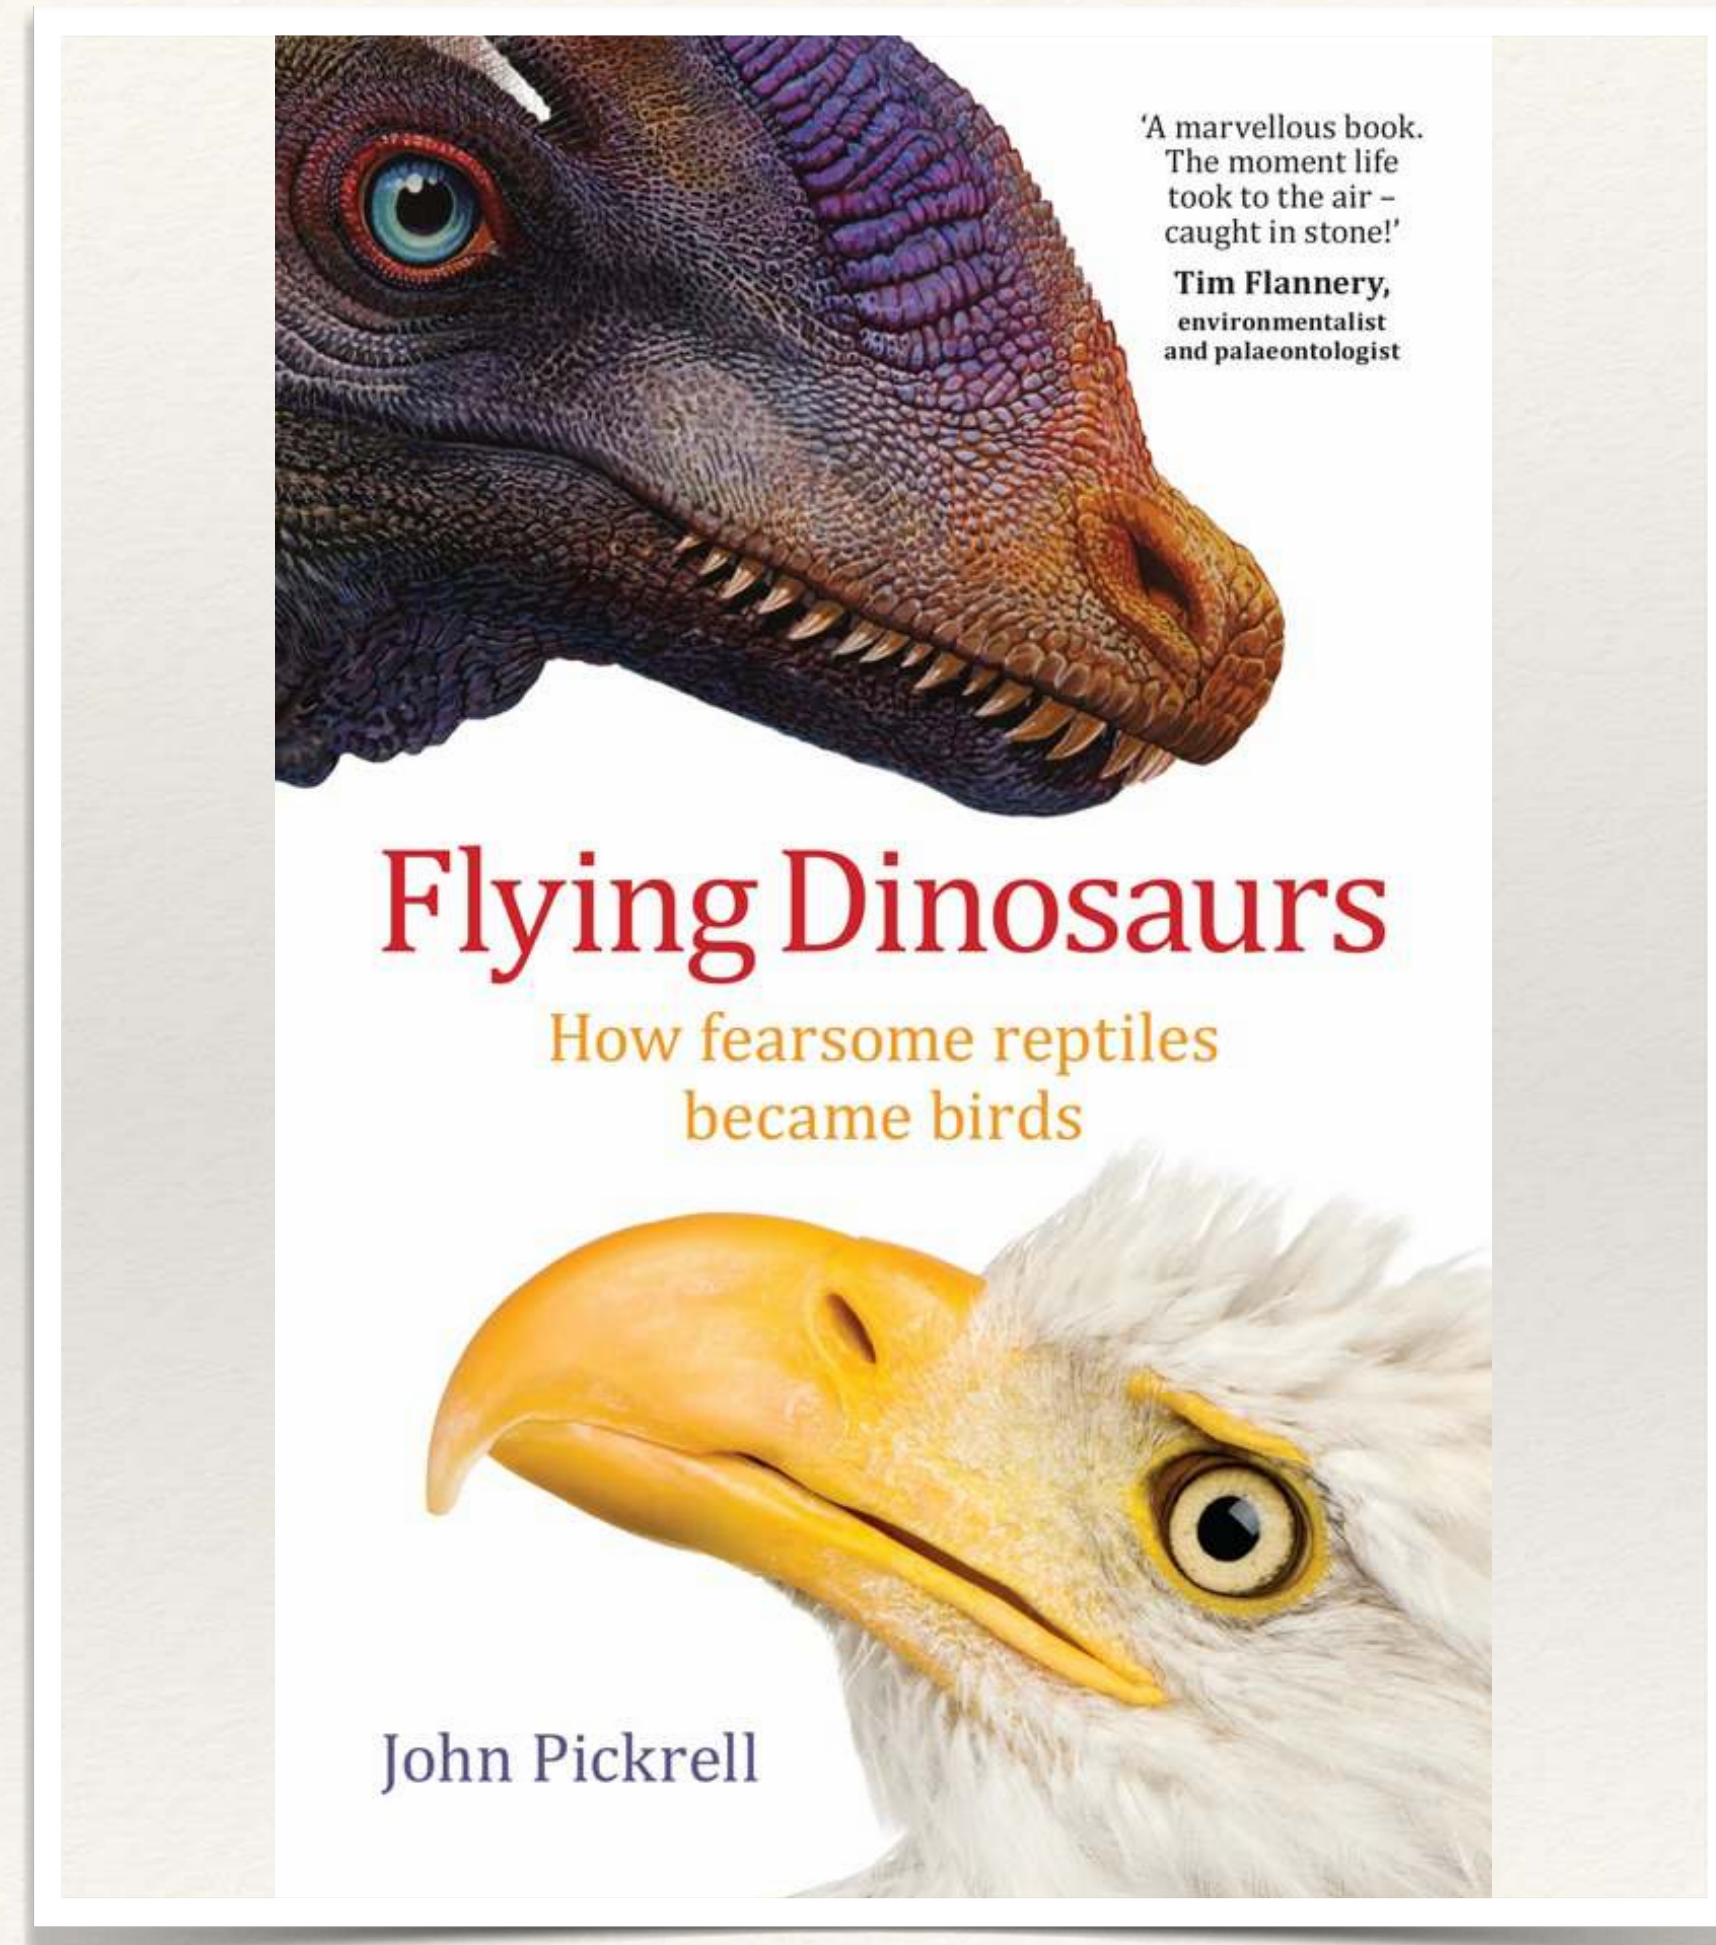

40 years later, it was **discovered to be a complete fraud** by a amateur archeologist in search of fame.

Evolutionary scientists concluded: “The Pitdown hoax stands as a cautionary tale to scientists not to be **led by preconceived ideas**”

“The Piltown Chicken”

- ❖ 1999 fossil from China allegedly showing a **dinosaur with birdlike plumage** was displayed triumphantly at the **National Geographic Society** and written up in the society's November magazine.
- ❖ **Was later proved to be a fraud.**
- ❖ Desperate for “proof”, the evolutionists are fooled.

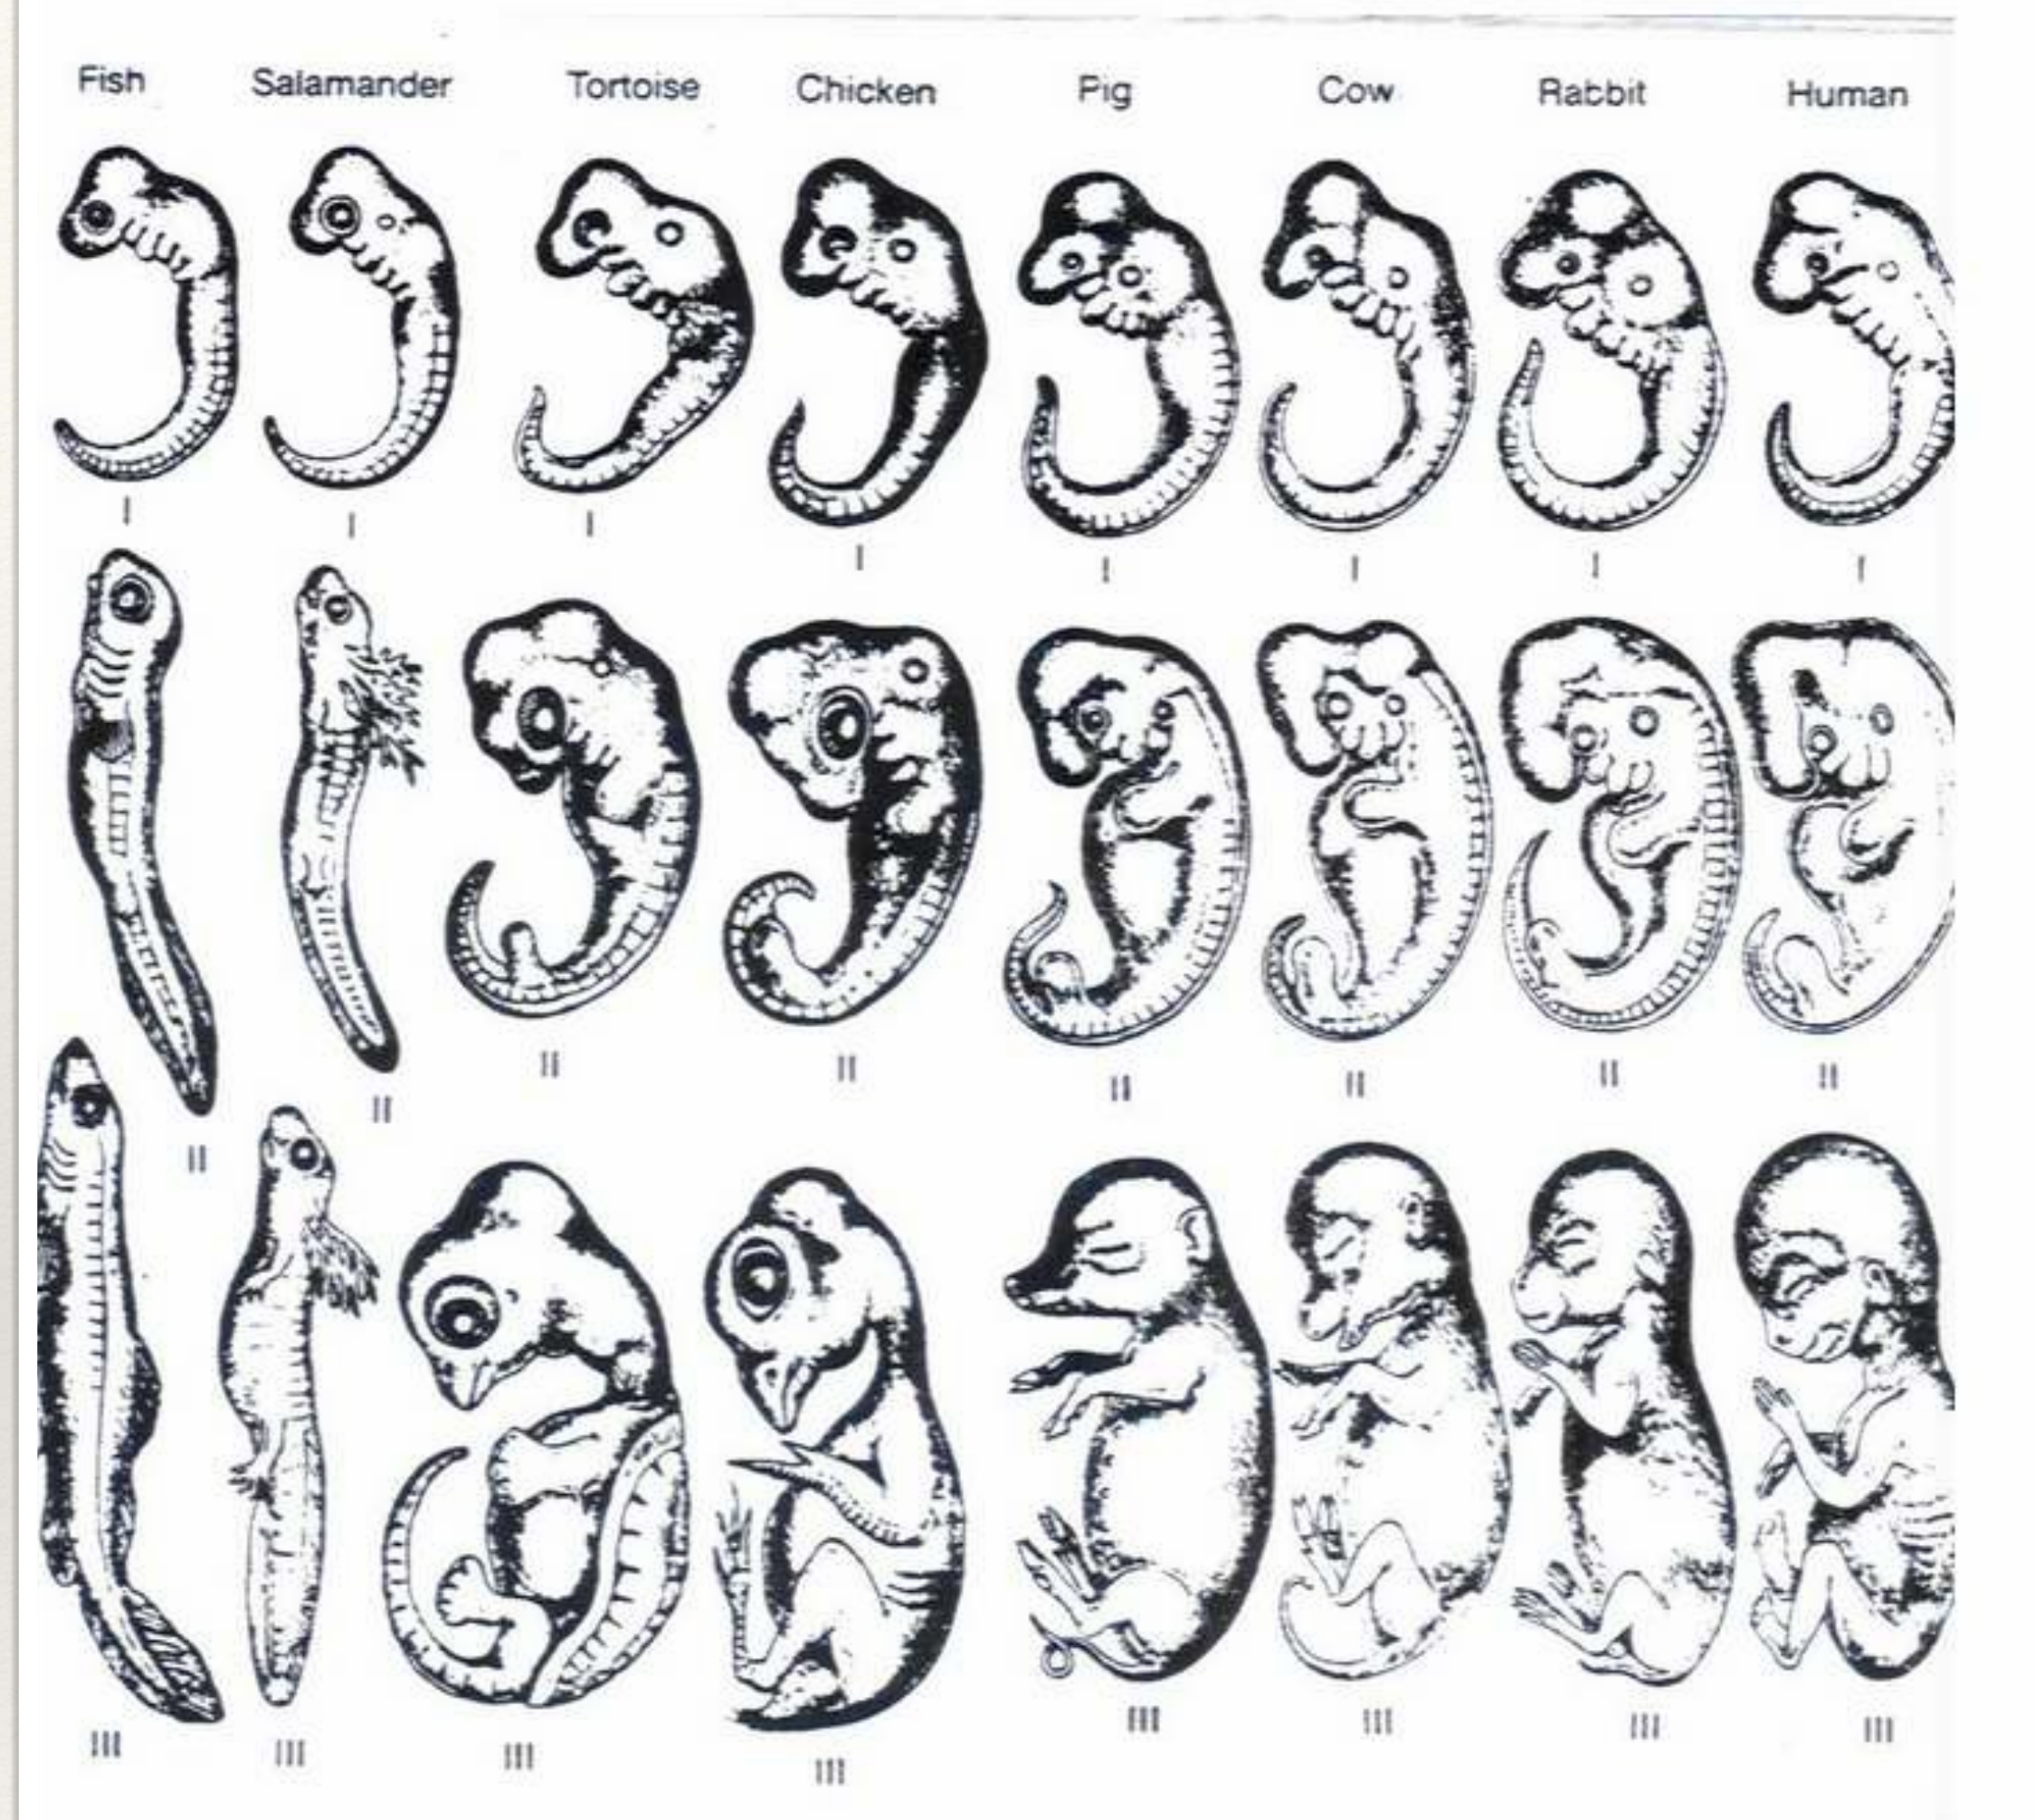

Haeckel's 1868 comparison of vertebrate embryos

“One of the most famous fakes in biology.”

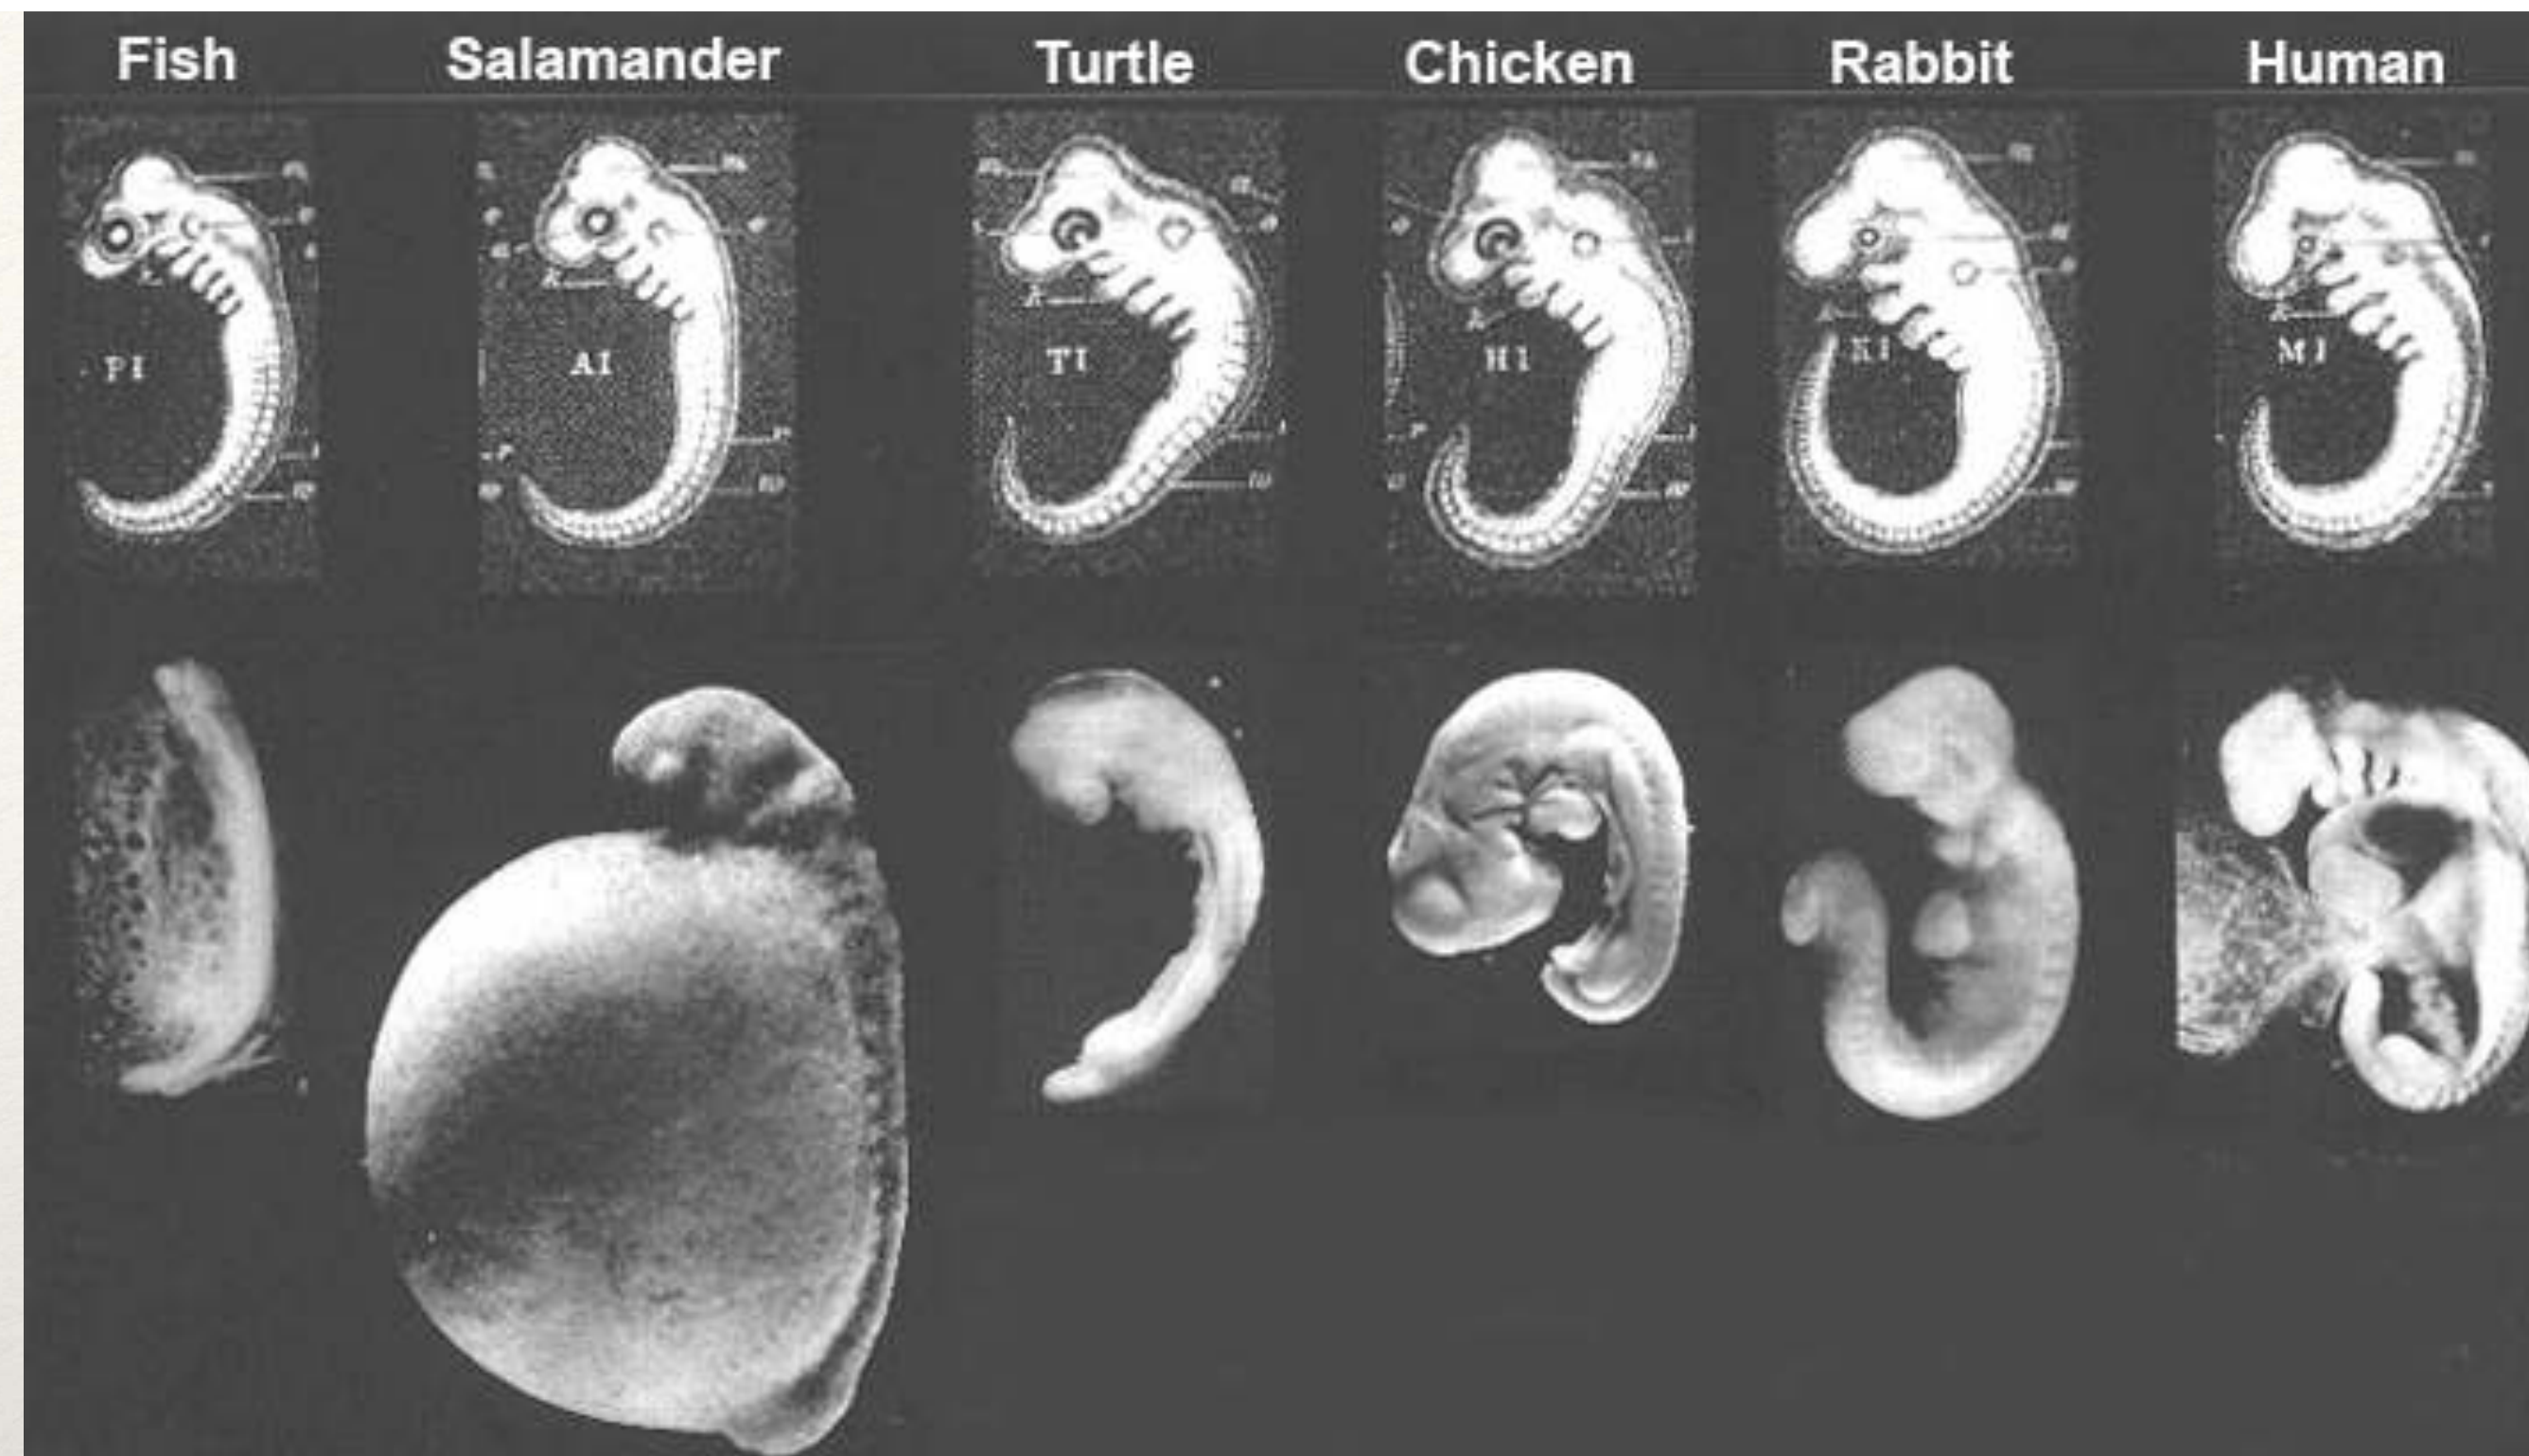

But reproduced widely in English-language biology texts into the 20th century!

The latest textbook was published in 2013 with these bogus drawings.

Haeckle's Faked Drawings

- ❖ Admitted he drew them **from memory**.
- ❖ Haeckle's drawings were immediately known to be so inaccurate that his "peers at his university in Jena convicted Haeckel of fraud in a university hearing."

Dr. Michael Richardson's Photo's Vs Haeckel's Drawings

100 Years of False Biology

Why didn't scientists correct it?

Stephen Jay Gould

- ❖ One of the most cited anti-intelligent design opponents
- ❖ Professor of Geology and curator of invertebrate paleontology at Harvard
- ❖ Says Haeckle's drawings are **inaccurate and falsified**

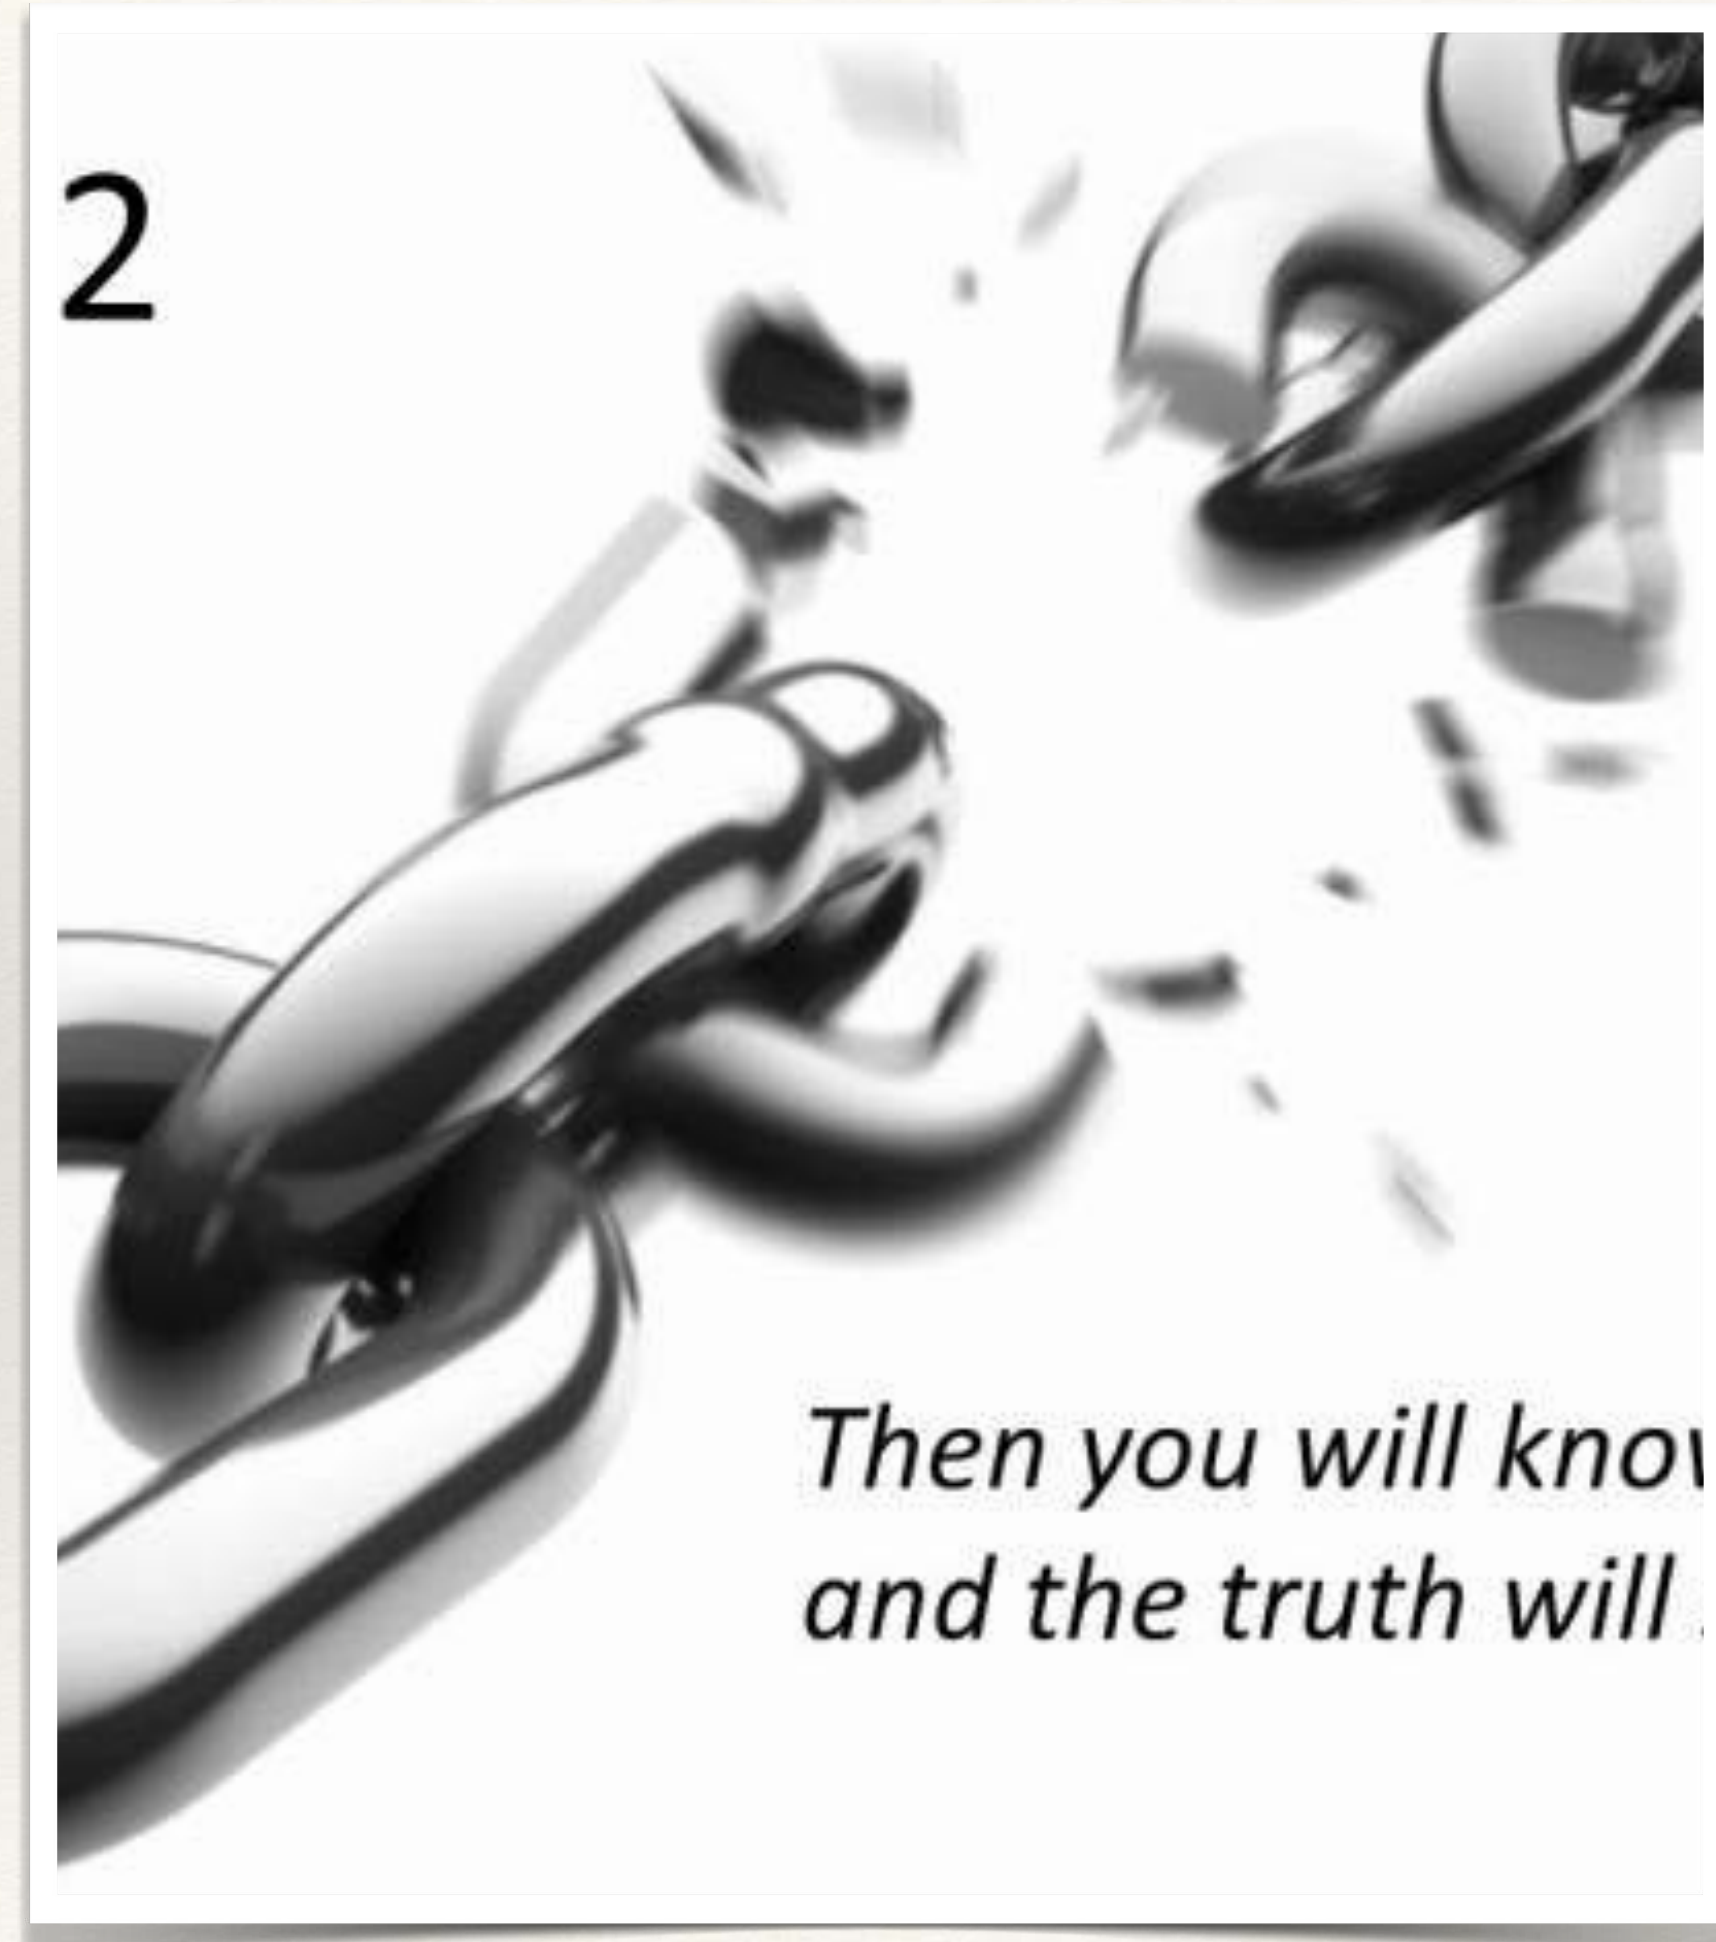

Haeckle's Faked Drawings

- ❖ **Dr. Michael Richardson**, Professor of Evolutionary Developmental Zoology, Leiden University, admitted in **Science Magazine in 1997** in an article entitled **Haeckel's Embryos: Fraud Rediscovered:**
- ❖ that his team's investigation of Haeckel's drawings were showed them to be "**one of the most famous fakes in biology.**" E Pennisi 1997 Sep 5;277(5331):1435.
doi: 10.1126/Science.277.5331.1435a.
